

PROVA 1

- a) I contenuti del progetto di fattibilità tecnica ed economica.
- b) Cosa sono le milestones di progetto? Citare alcuni esempi per la fase di progettazione di un'opera pubblica
- c) Ai sensi dello Statuto di Ateneo come viene individuato il Rettore e quanto dura il suo mandato?
- d) In excel a cosa servono i comandi sottoriportati?

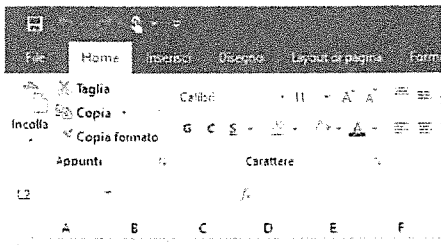

- e) Leggere e tradurre il seguente testo:

The Business Case typically contains an analysis of the necessary effort and costs to be incurred during the project, as well as the benefits that the project will bring. For larger projects addressing a political context, the Business Case must take into account an impact assessment, risks and a cost-benefit analysis.

Four handwritten signatures or marks are visible at the bottom of the page. From left to right: a small, stylized signature; a larger, more complex signature; a long, horizontal signature; and a vertical signature.

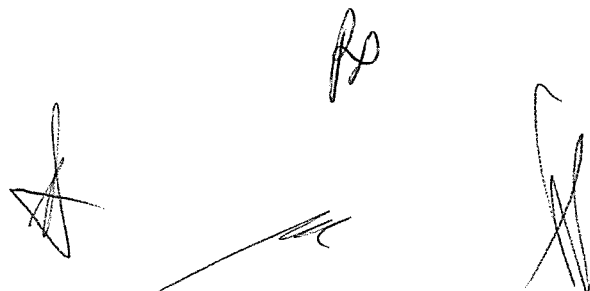

PROVA 2

- a) I sistemi di contabilizzazione a corpo e a misura delle opere pubbliche
- b) Che cosa è una Work Breakdown Structure (WBS)?
- c) Quali sono i principali compiti del Direttore Generale e da chi viene nominato?
- d) A cosa servono i pulsanti contenenti la scritta calibrì e 11?

- e) Leggere e tradurre il seguente testo:

It often happens in business that projects are initiated due to operating necessity, because the organization needs to run or simply because the boss wants them. Sometimes projects are selected for competitive necessity, to face capacity expansion and not to lose market shares, or because they are opportunity-driven. But most often, the selection of investment opportunities arises from the need of giving the highest return to limited financial resources.

PROVA 3

- a) Quali sono le più usuali procedure di scelta del contraente per la realizzazione di opere pubbliche

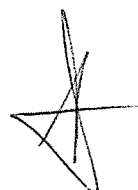

- b) Come si può definire un progetto secondo gli standard di project management?

- c) Che cosa sono i centri interdipartimentali di ricerca?

- d) In ms-excel cosa succede quando si trascina una cella o una selezione di celle?

- e) Leggere e tradurre il seguente testo:

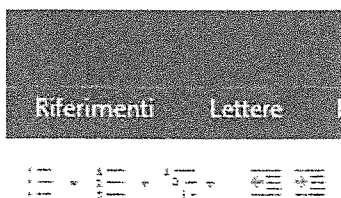

The selection of the appropriate contract organization is a central element the owner has to pay attention to during the feasibility phase of a project. A late definition in the contract organization may affect the intended results and prevent, for instance, from the usage of integrated-design delivery systems. Since the contract establishes the rules of the game, the contract itself has to develop according to the project life-cycle.

PROVA 4

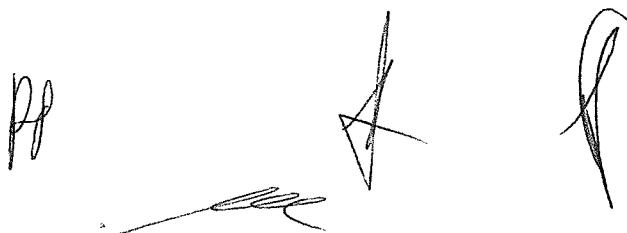

- a) I principali compiti del responsabile unico del procedimento in fase di progettazione.
- b) Che cosa è la matrice dei rischi (risk matrix)?
- c) Quali sono i principali compiti del Rettore?

- a) In un testo in word cosa si può fare con i pulsanti sottoriportati?

- d) Leggere e tradurre il seguente testo:

A project is basically the implementation of a contract between an owner and a contractor. A contract is managed by a group of people working for the owner's organization, the contractor's organization, or acting as consultants to one of the parties. To handle and manage the project, those people have to work effectively. This can be achieved by a project-oriented organization, in which responsibilities are defined within project management teams.

Handwritten signatures and initials. From left to right: the initials 'PP', a long horizontal signature, a signature that looks like 'A', and a signature that looks like 'P'.
