[Eligibility conditions]

A proposal will only be considered eligible if it meets all of the following conditions:

- ✓ It is received by the Commission or by the Research Executive Agency before the deadline given in the call text.
- ✓ It involves at least the minimum number of participants according to the eligibility conditions for participants.
- ✓ It is complete (i.e. both the requested administrative forms and the proposal description are present).

Individual Fellowships (IF)

H2020-MSCA-IF-2015

Opening Date	12-03-2015	Deadline Date	10-09-2015 17:00:00 (Brussels local time)
Publication date	23-07-2014	Total Call Budget	€215,000,000
Programme	Horizon 2020	Main Pillar	Excellent Science
Status	Open	OJ reference	OJ C361 of 11 December 2013

Topic: Marie Skłodowska-Curie Individual Fellowships (IF-GF) MSCA-IF-2015-GF

Topic Description Topic Conditions & Documents Submission Service

Proposals for Global Fellowships involve a *single* host organisation (future beneficiary) established in a MS or AC. The project proposals are submitted by this **host organisation**, which is represented by the **supervisor**, in *liaison* with the **researcher**.

Global Fellowships are composed of an **outgoing phase** during which the researcher spends 1 to 2 years on secondment to a partner organisation in a **Third Country**, plus a **mandatory 12-month return period** to a host organisation (**the beneficiary**) located in a **Member State or Associated Country**.

For Global Fellowships the applicants can submit their proposals as **GF** to one of the 8 main evaluation panels [1]

[1] Chemistry (CHE), Social Sciences and Humanities (SOC), Economic Sciences (ECO), Information Science and Engineering (ENG), Environment and Geosciences (ENV), Life Sciences (LIF), Mathematics (MAT), Physics (PHY).

5 - Call specific questions ?

Eligibility Researcher (future fellow)

1. Were you in the last 5 years in military service? Yes No
2. Are you a national of Member State or Associated Country? Yes No

Other Questions

For communication purposes only, the REA asks for permission to publish the name of the researcher (future fellow) should the proposal be retained for funding.

1. Does the researcher (future fellow) give this permission? Yes No
2. Is there a secondment in Member States or Associated Countries envisaged in Part B of this proposal? Yes No

Attention: this secondment is different than the outgoing phase in the Third Country, and only takes place in a Member State / Associate Country!!!

7. LETTER OF COMMITMENT OF PARTNER ORGANISATION (GF ONLY)

NB:

- Applicants must ensure that sections 1 - 3 do not exceed the limit of 10 pages.
- No reference to the outcome of previous evaluations of this or any similar proposal should be included in the text. Experts will be strictly instructed to disregard any such references.

[Part B of the Proposal]

The maximum total length of sections 1 to 3 of Part B of the proposal is **10 pages**, as indicated in the proposal template.

There is no page limit per section. Within the overall page limit, applicants are therefore free to decide on the number of pages dedicated to each section.

Please remember that it is your responsibility to verify that you conform to page limits. **Experts will be instructed to disregard any excess pages above the 10 page limit.**

The **minimum font** size allowed is **11** points. The page size is **A4**, and all **margins** (top, bottom, left, right) should be at least **15 mm** (not including any footers or headers). Ensure that the font chosen is clearly readable (e.g. Arial or Times New Roman).

[Part B of the Proposal]

Literature references should be listed in footnotes, font size 8 or 9. However, regardless of the format used, all footnotes will count towards the page limit

Part B of your proposal carries as a **header** to each page the proposal **acronym** and the **implementation mode** to which you are applying (i.e. Standard EF, CAR, Reintegration, GF). All pages should also be numbered in a single series on the footer of the page to prevent errors during handling. It is recommended that the numbering format "**Part B - Page X of Y**" is used.

The final version of Part B must include the letters of commitment required from TC Partner organisations.

These letters should be signed by the organisation's legal representative, or someone of equivalent authority

[Award criteria: IF]

- Introduction, state-of-the-art, objectives and overview of the action
- Research methodology and approach
- Originality and innovative aspects of the research programme

Excellence			
Quality, innovative aspects and credibility of the research (including inter/multidisciplinary aspects)	Enhancing human conditions	<ul style="list-style-type: none"> • Explain how the Experienced Researcher will gain new knowledge during the fellowship at the hosting organisation(s) • Outline the previously acquired knowledge and skills that the researcher will transfer to the host organisation 	ness f tasks
Clarity and quality of transfer of knowledge/training for the development of researcher in light of the research objectives	Effective commun		ment uding
Quality of the supervision and the hosting arrangements		<ul style="list-style-type: none"> • Qualifications and experience of the supervisor(s) • Hosting arrangements 	onal
Capacity of the researcher to reach or re-enforce a position of professional maturity in research		<p>Please keep in mind that the fellowships will be awarded to the most talented researchers as shown by the proposed research and their track record (Curriculum Vitae, section 4), in relation to their level of experience.</p>	ompetences, experience and ating al

[Award criteria: IF]

- Impact of the research and training on the **experienced researchers' career**
- Impact of the fellow's **research on European society**

Excellence	Impact	Implementation
Quality, innovative aspects and credibility of the research (including inter/multidisciplinary aspects)	Enhancing research- and innovation-related human resources, skills and working conditions to realise the potential of individuals and to provide new career perspectives	Overall coherence and effectiveness of the work plan , including appropriateness of the allocation of tasks and resources
Clarity and quality of transfer of knowledge/training for the development of researcher in light of the research objectives	Effectiveness of the proposed measures for communication and results dissemination	Appropriateness of the management structures and procedures , including quality management and risk management
Quality of the supervision and the hosting arrangements		Appropriateness of the institutional environment (infrastructure)
Capacity of the researcher to reach or re-enforce a position of professional maturity in research		Competences, experience and complementarity of the participating

- Communication and **public engagement** strategy of the action
- **Dissemination** of the research results
- Exploitation of results and intellectual property

European
 Commission

Outreach and Communication Activities in the MSCA under Horizon 2020

Guidelines

MSCA fellows are expected to engage in outreach activities as an integral part of their fellowship. Below is a non-exhaustive set of practical outreach activities that MSCA fellows could consider for their project.

Difference between communication and outreach

Outreach and communication activities are related, but are not the same and a good MSCA project should include a mix of both.

Outreach activities are meant to engage a large audience and to bring knowledge and expertise on a particular topic to the general public. Outreach activities can take several forms, such as school presentations, workshops, public talks and lab visits, etc. The objective of outreach is to explain the benefits of research to a larger public (the tax payers who fund your research). Outreach implies an interaction between the sender and the receiver of the message, there is an engagement and a two-way communication between the researcher and the public.

Communication, on the other hand, only goes in one direction from the sender to the receiver. Communication refers to articles in *mainstream* newspapers and magazines, or on TV and radio channels. Successful communication requires a clear language and attractive scientific subject with outstanding results that can catch the media's attention.

The European Commission is aware that not every MSCA researcher is undertaking research of interest to the mass media. You can start small and attempt having your research published in your local newspaper. Researchers should be able to explain their project to the large public in *accessible language*: imagine having to explain what you do to fellow commuters on your daily trip to work.

Possible activities

In order to give visibility to MSCA projects, fellows could take part in outreach activities such as:

- **Marie Skłodowska-Curie Ambassadors:** Fellows acting as "Ambassadors" organise activities with the aim of promoting their research to all public audiences. MSCA researchers visit schools and universities or assist educators in

Marie
 Skłodowska-
 Curie Actions

[Award crit

- Work Packages titles (for EF there should be at least 1 WP);
- List of major deliverables;
- List of major milestones;
- Secondments if applicable.

Excellence		Implementation
Quality, innovative aspects and credibility of the research (inter/multidisciplinary aspects)	conditions to realise the potential of	Overall coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources
Clarity of knowledge of research objectives		Appropriateness of the management structures and procedures, including quality management and risk management
Quality of infrastructure		Appropriateness of the institutional environment (infrastructure)
Capacity to enforce research		Competences, experience and complementarity of the participating organisations and institutional commitment

- Project organisation and management structure

- Risks that might endanger reaching project objectives

- Describe the infrastructure, logistics, facilities offered in as far they are necessary for the good implementation of the action

- The active contribution of the beneficiary to the research and training activities should be described. For GF also the role of partner organisations in Third Countries for the outgoing phase should appear

PROPOSAL ACRONYM – MSCA-IF-GF
 (Delete as appropriate and include as header on each page)

4. CV of the Experienced Researcher

The CV is intrinsic to the evaluation of the whole proposal and is assessed throughout the 3 evaluation criteria.

This section should be limited to maximum 5 pages and should include **the standard academic and research record**. Any research career gaps and/or unconventional paths should be clearly explained so that this can be fairly assessed by the independent evaluators.

The *Experienced Researchers* must provide a list of achievements reflecting their track record, and this may include, if applicable:

1. **Publications in major , peer-reviewed conference proceedings and/or monographs** of their respective research fields, indicating also the number of citations (excluding self-citations) they have attracted.
2. Granted **patent(s)**.
3. **Research monographs, chapters** in collective volumes and any translations thereof.
4. **Invited presentations** to peer-reviewed, internationally established conferences and/or international advanced schools.
5. **Research expeditions** that the *Experienced Researcher* has led.
6. **Organisation of International conferences** in the field of the applicant (membership in the steering and/or programme committee).
7. Examples of **participation in industrial innovation**.
8. **Prizes and Awards**.
9. Funding received so far
10. Supervising, mentoring activities.

maximum 5 pages

[Tips on how to write a successful proposal]

- Use standard and concise english
- Make the text clear, well structured, and fluent
- Plan an index, use short paragraphs, point out key passages, schematise the concepts
- Insert only information relevant to the project
- Answer to ALL! the questions indicated in the form
- Coherent language in all proposal paragraphs (e.g. service – system, experimentation – test etc.)

[Tips on how to write a successful proposal]

- Do not assume that the evaluator is a hardcore expert in the field
- A clear description of the research methodology
- Explain why it is original, innovative, timely and relevant
- Highlight interdisciplinary/multidisciplinary aspects of the proposal
- Why the research and training presented will bring new skills and knowledge to the candidate
- Complementary skills
- Demonstrate its feasibility, risk analysis, and, if possible, show a plan B

[Tips on how to write a successful proposal]

Make the proposal readable. Evaluator has few hours to read your proposal and evaluate it.

Write in bold, use cursiv, underline.

Better one table than thousand words...

Eleven centres and research groups active in andrology and medical sexology have been selected: Leuven (B), Muenster (D), Leipzig (D), Barcelona (E), Rome (I), Florence (I) (these biomedical centres also have interdisciplinary connections with psychological and psychosexual research groups and inter sectorial connections with research groups in the sectors of sociology and science of communication; complementary training described in point B2.1 will be organised in these Centres); Malmoe (S), Manchester (UK), Giessen (D), Tartu (EE), Lodz (PL) (centres with clinical and bio-molecular facilities). See also point B3 with the individual Centres description.

As previously noted, these centres are already linked by a common training project under the EAA. This new research and training project will be able to make use of an already effective network.

Also inserted in the Network will be the companies most involved in producing the latest generation products active in the andrological field: Serono, Organon, Ferring. Sigma Tau producing hormones and drugs proposed for therapy male infertility, Eli Lilly, Pfizer, Bayer, and GSK, manufacturer of inhibitors acting on erectile dysfunction, Johnson & Johnson, manufacturer of the serotonin reuptake, specifically aimed at treating premature ejaculation, Schering-Plough, manufacturer of testosterone formulations with innovative, specific administration methods dedicated to andrology. The complementary training described in point B2.1 will be organised by experts

List of involved Centres

Malmö (S), University of Lund, Department of
 Manchester (UK), Department of Endocrinology
 Tartu (EE), Department of Urology, Tartu Univ
 Leuven (B), Department of Endocrinology, Un
 Muenster (D), Institute of Reproductive Medi
 Giessen (D), Department of Dermatology, Jus
