Short biography

Raian Ali joined Hamad Bin Khalifa University in Qatar as a Professor in Information and Computing Technology in January 2020. His research has an interdisciplinary nature, focusing on the relationship between technology and human requirements and behavior. Raian Ali is the director of a significant project on Digital Citizenship in Qatar and leads the Technology and Behavior (iSolouk) research group. Prior to his current position, he worked at Bournemouth University in the UK, the Irish Software Engineering Centre in Ireland, and Trento University in Italy.
