ARCHMAT SUMMER SCHOOL 2017

ARCHAEOLOGY AND UNDERWATER ARCHAEOLOGY

20 - 26 July 2017

Director of the School

Prof. E. Caponetti

Co-Directors

Prof. S. Tusa, Prof. N. Schiavon

Scientific Committee

Prof. E. Caponetti, Prof. S. Tusa, Prof. N. Schiavon, Prof. E. Varella, Prof. G. Gigante, Prof. C. Vieillescazes, Prof. G. F. de la Fuente.

Organising Committee

Prof. D.F. Chillura Martino; Dr. F. Armetta; Dr. S. Bastone; Dr. R. Pitonzo, Dr. G. Nasillo; Dr. V. Renda; Dr. M.L. Saladino; Dr. A. Spinella, Mrs F. Sammartino.

Maximum number of participants: 30

Applications can be downloaded at
<http://www.unipa.it/strutture/atencenter/summer-school-2017/>

Deadline for submission of applications by e-mail to cga@unipa.it : 30th of June 2017

Registration fee: 600,00 €. The fee includes registration to the Summer School and to the *Associazione Culturale Archaeometry Summer School* (10 €), teaching materials, social dinner and trips as indicated in the Program. Travel Costs, Accommodation and everything not indicated are not included.

Description

The International ARCHMAT 2017 Summer School is organized within the framework of the ERASMUS MUNDUS

European Master in Archaeological Materials Science ARCHMAT. The school is targeted to all those, students in related disciplines as well as operators in the field, that are interested in Archaeometry and in Archaeology of underwater world. The School is organized in lecture sessions and in practical technical workshops. Guided visits of selected museums and archaeological sites will be provided. During these visits some thematic lessons and practical sessions will be held.

The language of the School is English.

Aim and Main Topics of the School

The knowledge and understanding of Cultural Heritage requires the cooperation of experts in various fields for whom the cooperation has the meaning of interconnection of skills through the realization of synergic activities by using a common language. This has been already put in practice among some archaeologists and researchers participating to the School.

The aim of the School is to spread and to improve the knowledge about Archaeometry and Archaeology of the underwater world and their interconnection through the expert lecturers and the presentation of some results achieved in various archaeometry surveys.

Technical workshops are focused on

- Orichalcum Ingots
- Rostrum
- Helms
- Amphorae
- Wooden findings

For each case study, both the archaeological and the archaeometric context will be discussed. The basic and the application of portable instrumentations such as XRF, IR, etc... and analytical instrumental facilities such as μ -FTIR, NMR and GC-MS at CGA will also be presented.

Contributors

At the moment, research and archaeologist experts from the following Universities and Institution have been recruited as speakers:

- Università degli Studi di Palermo, Italy
- Soprintendenza del Mare-Regione Siciliana, Palermo (Italy)
- Università "La Sapienza", Rome (Italy)
- Università del Salento (Italy)
- Università di Bologna (Italy)
- Università della Calabria (Italy)
- Università di Napoli "Federico II" (Italy)
- Consiglio Nazionale delle Ricerche (Italy)
- Istituto Superiore per la Conservazione ed il Restauro (Italy)
- Regione Siciliana Assessorato Beni Culturali (Italy)
- Centro Conservazione e Restauro della Venaria Reale (Italy)
- Istituto Superiore per la Conservazione e il Restauro (ISCR)
- Universidade de Évora (Portugal)
- Aristotle University of Thessaloniki (Greece)
- University of Crete (Greece)
- Université d'Avignon (France)
- Universidad de Cadiz (Spain)
- Universidad de Zaragoza (Spain)
- Universidad de Burgos (Spain)
- University of Zadar (Croatia)
- University of Malta (Malta)
- University of South Florida (USA)

Some of the case studies presented in this School are part of Project "DELIAS" - PON03PE_00214_2.
