

Curriculum vitae Antonino Morabito

antonino.morabito@unifi.it

POSITION Professore di Chirurgia Pediatrica Università di Firenze - Direttore del Dipartimento di Chirurgia - Direttore della Unità di Ricostruzione Riabilitazione e Rigenerazione Intestinale - Ospedale Pediatrico Meyer

WORK EXPERIENCE

2014–Present Reader in Regenerative Medicine

Faculty of Biology, Medicine and Health - Infection, immunity, inflammation and repair - University of Manchester, Manchester (United Kingdom)

Dal 2014 Professor Life Science - University of Salford- Manchester, Salford (United Kingdom)

Dal 2011 Co-Direttore della Unità di Intestinal Failure and Short Bowel Syndrome

Salford Royal Hospital- University of Salford- Manchester, Salford (United Kingdom)

2003–2018 Direttore Dipartimento - Paediatric Autologous Bowel Reconstruction and

Rehabilitation Unit (PABRRU) Royal Manchester Children's Hospital, Manchester (United Kingdom)

2003–2018 Consultant Neonatal and Paediatric Surgery presso il Royal Manchester Children's Hospital, Manchester (United Kingdom)

Dal 2000 al 2002 Fellow in Neonatal and Paediatric Surgery Royal Manchester Children's Hospital, Manchester (United Kingdom)

EDUCATION AND TRAINING

07/04/2017 Abilitazione Scientifica Nazionale Professore I Fascia - E06/E2; MED/20 Ministero dell'Istruzione, dell'Università e della Ricerca (MIUR) (Italy)

23/01/2015 Abilitazione Scientifica Nazionale Professore II Fascia - E06/E2; MED/20 Ministero dell'Istruzione, dell'Università e della Ricerca (MIUR) (Italy)

Dal 2003 Fellow Royal College of Surgeon, Edimburgo (United Kingdom)

Dal 2003 Fellow International College of Surgeon, Chicago (United States)

Dal 2003 Fellow Royal College of Surgeon England, Londra (United Kingdom)

01/09/1996–01/11/2001 Specializzazione in Chirurgia Pediatrica - voto 70/70

Università degli Studi di BOLOGNA, Bologna (Italy)

Trattamento chirurgico dell'ano imperforato

01/09/1990–25/10/1995 Specializzazione Chirurgia Generale - voto 48/50

Università degli Studi di PERUGIA, Perugia (Italy)

"Il trattamento chirurgico dell'invaginazione nel paziente adulto e pediatrico"

24/10/1990 Laurea in Medicina e Chirurgia - voto 110/100 cum laude Università degli Studi di PERUGIA, Perugia (Italy) L'uso delle suturatrici meccaniche nel trattamento chirurgico del megacolon congenito

1984 Diploma Scuola Secondaria Superiore Scuola secondaria di II grado - G.C. TACITO, Terni (Italy)

Communication skills

Nel 2013 ho cominciato un programma formativo per colleghi con esperienza in Short Bowel

Syndrome (Masterclass in bowel reconstruction) su modelli intestinali sintetici.

Nel Dicembre 2014 ho avuto il piacere di organizzare il primo web meeting volto alla formazione di un consorzio europeo per la formazione di un registro unico riguardante i pazienti affetti da Short Bowel Syndrome. Alla luce della bontà dell'idea sono stati già programmati ulteriori meeting con primari di calibro internazionale.

Inoltre con la passione nel divulgare la mia esperienza chirurgica nella tecniche di riabilitazione intestinale ho colmato il gap di training dando vita al Masterclass in tecniche di allungamento intestinale utilizzando simulatori sintetici. Nei primi due eventi ho avuto l'onore di poter ospitare come lecturers esponenti del calibro mondiale quali Mr. Adrian Bianchi, Prof. Mark Davenport (King's College Hospital, London, UK) e Prof. Kishore Iyer (Mount Sinai Hospital, New York, USA). A tale Masterclass hanno partecipato figure professionali da tutto il mondo. Inoltre tale programma ha raggiunto l'interesse del British Association of Paediatric Surgery (BAPS) come evento formativo per gli specializzandi e specialisti inglesi.

Managerial Appointments: University

- PhD Supervisor in Regenerative Medicine - Institute of Human Development - University of Manchester (2013 - 2016). Manipulating growth and differentiation of embryonic intestine in organ culture
- PhD Academic Adviser in Regenerative Medicine Institute of Human Development - University of Manchester (2014- 2018) Analysis of mesoderm cell lineage by a novel ex-vivo embryo culture system
- Supervisore Diploma IUSS Università' di Pavia (2015)
- Associate Hospital Dean for improving excellence - School of Medicine - University of Manchester (2012 - 2018)

- Member of Medical Students Support Service - School of Medicine - University of Manchester (2007 – 2018)
- Academic Advisor - School of Medicine - University of Manchester (2008 – 2018)
- Supervisore MPhil University of Salford - Manchester 2012 . Autologous Bowel reconstruction: surgical procedures
- Supervisore Msc University of Salford- Manchester 2013: Systematic Review of surgical management of short bowel
- Bsc programme University of Manchester 2014: The role of TGFB1 in intestinal growth
- ERASMUS PROJECT

Managerial Appointments: NHS

- Clinical Director Surgery - Royal Manchester Children's Hospital (December 2012 to 2015)
- Clinical Manager Paediatric Surgery - Department of Paediatric Surgery (January 2011- December 2012)
- Clinical Manager Neonatal Surgery (January 2007-December 2010)
- Chair of the Paediatric Autologous Bowel Reconstruction Unit - The Royal Manchester Children's Hospital (2011 – 2018)
- Clinical Manager (Surgery) - Neonatal Intensive Care Unit - St Mary's Hospital (August 2009 to January 2011)

Job-related skills TECNICHE DI RICOSTRUZIONE INTESTINALE PROPOSTE

Longitudinal intestinal lengthening and tailoring

Serial Transverse Entero Plasty Procedure

Spiral intestinal lengthening and tailoring

Colonic interposition

Intestinal reverse segments

Controlled intestinal tissue expansion

Management of Enterocutaneous Fistulae

TECNICHE DI CHIRURGIA DI ALTA SPECIALIZZAZIONE PROPOSTE

Esofagoplastica e chiusura di fistola tracheo esofagea mediante accesso ascellare sec. Bianchi

Surgery for tracheomalacia con accesso dal manubrio dello sterno sec. Morabito- Bianchi

Sostituzione esofagea (Trasposizione digiunale , gastrica) per atresia esofagea tipo long gap

Chiusura di difetto da ernia diaframmatica

Trans anal pull though per Hirschsprung disease

Malformazioni anorettali: Posterior Sagittal Ano Recto Plastic procedure (PSARP) and trans anal proctoplasty (TAP)

Laparotomia per emergenze neonatali

Re-do Surgery dopo correzioni di malformazioni congenite dell'apparato gastroenterico

Chirurgia del reflusso gastroesofageo nel paziente neuropatico mediante dissociazione esofago gastrica

Cloaca Repair

Complex Abdominal wall defects (Gastroschisis - chiusura di Onfalocele sec. Morabito- Bianchi)

Duodenal atresia/stenosis

Bowel atresia

enteric duplication of the GI tract

Surgery for NEC

Endocrine- surgery (Pancreatectomy for CHI- Thyroidectomy (total-partial) - Adrenalectomy- Para-Thyroidectomy)

Laparotomie neonatali con accesso sopra ombelicale

RIASSUNTO CASISTICA OPERATORIA - Consultant grade

Interventi eseguiti dal Gennaio 2003 ad Aprile 2018

- Totale (Pediatria e Neonatale): 5431

- Primo Operatore: 3763

- Secondo Operatore (con funzione di teaching): 1668

-Interventi Chirurgia Pediatrica: 4203

- Primo Operatore: 2734

- Secondo Operatore (con funzione di teaching): 1469

-Interventi Chirurgia Neonatale: 1240

- Primo Operatore: 925

- Secondo Operatore (con funzione di teaching): 315

Di particolare menzione

Interventi di allungamento intestinale: 72

SPIN OFF

Dal 2010 ad oggi ho preso parte alla creazione e allo sviluppo dell' Autologous Intestinal

Reconstruction & Augmentation Unit per la cura di pazienti adulti affetti da insufficienza intestinale cronica benigna.

Ciò ha portato alla creazione dell'Unità Nazionale per insufficienza intestinale a Salford Royal - Università di Salford. Ho anche provveduto alla formazione di chirurghi generali nell'approccio terapeutico e chirurgico per la cura di queste patologie. Associazione Esofago-gastrica: 54

Ad oggi sono riconosciuto come uno degli esperti mondiali nel trattamento di questa patologia come dimostrato dalle pubblicazioni in merito.

Sono stato allievo di Mr. Adrian Brianchi, vincitore della Denis Browne Gold medal, riconoscimento prestigioso per celebrare i contributi eccezionali alla chirurgia pediatrica.

Nel 2012 ho iniziato un programma di ricerca nell'ambito della medicina rigenerativa presso l'Università di Manchester

La SBS non è solo da considerare una patologia di interesse pediatrico ma anche nel paziente adulto. Alla luce di ciò la mia esperienza è stata richiesta per la creazione del primo centro europeo per la cura dell'intestino corto in pazienti adulti presso l'Ospedale Salford Royal collegato con la Università di Salford.

Nel 2012 ho eseguito il primo allungamento intestinale in Inghilterra su di un paziente di 52 anni TPN dipendente con 40 cm di intestino residuo. Dopo 8 mesi il paziente non necessitava più di terapia parenterale di supporto.

Nel 2013 ho cominciato un programma formativo di training per colleghi con esperienza in SBS (Masterclass in bowel reconstruction) su modelli intestinali sintetici.

Dal 2014 sono direttore e curatore del Masterclass in chirurgia rigenerativa, corso teorico pratico su simulatori sintetici nell'ambito della divulgazione delle tecniche chirurgiche di riabilitazione intestinale Education, Teaching and Learning Undergraduate

- Insegnamento chirurgia pediatrica medical students and nurses (Consultant lead Tutorials).
- Educational supervisor of Registrars in training in the Manchester Consortium
- Examiner "OSCE Paediatric Station" 4th year Medical Student.
- Post of Medical Students' Tutor at the University of Manchester – School of Medicine
- Post of Assigned Educational Supervisor at the RMCH
- Post of Academic Advisor at the University of Manchester – School of Medicine

Postgraduate

- Insegnamento presso il corso internazionale di Paediatric Surgery presso l'University of Oxford
- Insegnamento per i National trainees in Paediatric Surgery
- Insegnamento per i National Fellows in the field of Short Bowel Syndrome

- Dirigo e insegno presso l'international Masterclass Course on short bowel syndrome

Sono stato coinvolto attivamente in lezioni di insegnamento sulla chirurgia neonatale e pediatrica per gli studenti di medicina dal 2003 ad oggi.

Sono stato coinvolto nei seguenti aspetti dell'insegnamento della chirurgia pediatrica presso l'Università di Manchester-Facoltà di Medicina per un totale di 90 ore ogni anno (ECTS CFU UK / anno = 6 equivalenti a CFU Ita / anno = 3.6):

A) Student selected Component (4th year medical school students), 30 ore/anno

B) Teaching Hospital Placements (5th year medical school students). 20 ore/anno

C) Block 5 – 6 – 7 - 8 post final exam hospital based apprenticeship (5th year medical school students), 20 ore/anno

D) Personal Excellence Paths (1st to 5th year medical school students), 20 ore/anno

Sono stato anche coinvolto nell'insegnamento della chirurgia pediatrica e neonatale (lezioni e abilità chirurgiche) ai tirocinanti di base e agli specializzandi in chirurgia pediatrica, nel quadro del programma di nazionale per la formazione in Chirurgia Pediatrica presso il Consorzio Manchester - Liverpool.

Insegno anche presso il Corso di Chirurgia Neonatale di Oxford.

La quantità di ore dedicate per le attività di cui sopra è pari a 75 ore all'anno (CFU UK / anno = 5 equivalenti di CFU Ita / anno = 3).

Nel complesso la mia attività di insegnamento annuale consta di CFU ECTS UK / anno = 11 equivalenti a UFC Ita / anno = 6.6

Responsabilità di studi e ricerche scientifiche affidati da qualificate istituzioni pubbliche o private

Tesi di Specializzazione in Chirurgia Pediatrica Università degli Studi di Siena

"Hirschsprung's Disease in two European centres"

Tesi di Specializzazione in Chirurgia Pediatrica - Università degli Studi di Padova: Deconnessione Esofago Gastrica "OGD" come trattamento della malattia da reflusso gastroesofageo nel paziente neuroleso

Tesi di Specializzazione in Chirurgia Pediatrica - Università Cattolica del Sacro Cuore - Roma. La Ricostruzione Intestinal autologa nel trattamento della sindrome da intestino corto

Tesi Specializzazione in Chirurgia Pediatrica - Università degli Studi di Padova Intestinal

Reconstructive Surgery in Children With Short Bowel Syndrome: How the Aetiology Can Influence the Outcome

Erasmus Project Universita' degli Studi di Cagliari dal 01-03-2017 al 31-05-2017

Erasmus Project Universita' degli Studi di Pavia dal 01-08-2015 al 30-09-2015

Erasmus Project Universita' degli Studi di Pavia dal 01-03-2013 al 31-05-2013

Erasmus Project Universita' degli Studi di Pavia dal 01-07-2012 al 01-09-2012

Diploma IUSS Universita' degli Studi di Pavia (Erasmus Project): D lactic acidosis in short bowel syndrome

Research Program Nursing Lead (preparation to MSc) - Research program Founded by NHS North West

External referee;

Invitation to evaluate a project proposal from University of Verona dal 01-04-2015 al 01-05-2015

Partecipazione al collegio dei docenti ovvero attribuzione di

Supervisor Master University of Salford - School of Health and Science dal 01-01-2012 al 01-01-2014

incarichi di insegnamento, nell'ambito di dottorati di ricerca accreditati dal Ministero

Co supervisor and Advisor of 2 PhD students at the University of Manchester dal 01-01-2013 a oggi

Internal Examiner MPhil University of Salford dal 17-06-2013 al 17-06-2013

Internal Examiner 1st year PhD Viva - University of Manchester dal 21-10-2014 al 21-10-2014

Formale attribuzione di incarichi di insegnamento o di ricerca (fellowship) presso qualificati atenei e istituti di ricerca esteri o sovranazionali

▪ Educational supervisor of Paediatric Surgical Registrars in training in the Manchester- Liverpool Consortium dal 01-01-2002 al 2018

▪ Clinical supervisor of Registrars in training in the Manchester- Liverpool Consortium dal 01-01-2002 al 2018

▪ Academic Appointment , Division of Cell Matrix Biology and Regenerative Medicine, School of Biological Sciences. Faculty of Biology Medicine and Health, University of Manchester, Manchester, United Kingdom dal 01-01-2003 al 2018

▪ Examiner "OSCE Paediatric Station" 4th year Medical Student at the University of Manchester school of Medicine dal 01-10-2003 al 2018

▪ Teacher at the Association of Surgical Nurses Practitioners on: Basic Surgical Techniques and Suturing: dal 01-01-2004 al 31-12-2008

▪ Teacher at the Basic Surgical Skill Course for Non-Medically Qualified Practitioners. London Royal College of Surgeon 20th -21st April 2004 dal 20-04-2004 al 21-04-2004

- Teacher all Scuola di specializzazione in Chirurgia Pediatrica dell'Universita' degli studi di Padova dal 04-10-2004 al 06-10-2004
- Teacher at the Royal College of Physician and Child Health Study-Day for Community Pediatrician on "Feeding Difficult Patients" at Levenshulme Medical Centre – Manchester, 19th December 2005 dal 19-12-2005 al 19-12-2005
- Project Option, Student Selected Component, and Portfolio Reviewer at the University of Manchester School of Medicine dal 01-01-2006 al 30-04-2018
- Teacher at the National Training Day for Paediatric Surgical Registrars. TOGD: an alternative approach. Manchester 5th - 6th October 2006 dal 05-10-2006 al 06-10-2006
- Teacher at the University of Salford School of Midwifery and Nursing: Preparation for Professional Practice in Children and Young People's dal 01-01-2007 al 30-04-2018
- Teacher at the "Examination of the Newborn Study Day" on Surgical Emergencies at the University of Salford dal 13-11-2007 al 13-11-2007
- Teacher at the Advance Practice in Neonates at the University of Salford : This practical course uses a work-based learning approach to develop the higher-level skills that will lead to advanced practitioner status. A number of clinical competencies are taught: such as advanced resuscitation skills, insertion of percutaneous long lines, insertion of umbilical and venous catheters, airway management and intubation and chest drains. dal 13-11-2007 a 30-04-2018
- Academic Advisor at the University of Manchester school of Medicine dal 01-10-2009 al 30-04-2018
- Teacher at the International medical summer school Conference from 2010 al 2018
- Teacher at the BSPHGAN- BAPEN Paediatric training day - Gastroesophageal reflux in the neurologically impaired children Harrogate 2010 dal 01-11-2010 al 01-11-2010
- Teacher at the Oxford Neonatal Surgical Course for paediatric surgical trainees dal 01-01-2011 a oggi
- Teacher at the Pediatric Surgery Postgraduate Seminars- Vienna December 2011

Attività di Ricerca Ho partecipato alla creazione dello study design e dell'arruolamento dei pazienti per un progetto sulla

" characterization of haemopoiesis in patients affected by Down's syndrome - DS- (in collaborazione con RF Wynn and I Bellantuono, Stem Cell Research Group, RMCH). Questo studio ha evidenziato un'a severa deficienza di emopoiesi delle stem cell nei pazienti con DS. Un manoscritto e' stato pubblicato su questo studio.

Sperimentazione su modello porcino finalizzata alla creazione e applicabilita' di intervento chirurgico denominato SILT (spiral intestinal lengthening and tailoring) per il trattamento della Short Bowel Syndrome. Sperimentazione eseguita presso laboratorio di ricerca presso Institute of Surgical Research, University of Szeged, Hungary dal 03-02-2010 al 30-12-2012

Correlation of ante-natal bowel dilatation on ultrasound and outcome data in gastroschisis REC ref: 08/H1013/32 dal 01-01-2011 al 01-01-2012

Long-term Outcomes of Laparoscopic Fundoplication Versus Total Oesophagogastric Dissociation (TOGD) in Severely Neurologically Impaired Children REC reference: 13/YH/0179 IRAS project ID 125371 dal 01-06-2013 al 01-06-2015

Quality of life and family impact of short bowel syndrome: the patient's perspective (REC Ref:13/NW/0281). dal 01-05-2014

Projects ▪ Principal investigator: BAPS-CASS study on Short Bowel Syndrome 2016-2018

▪ National Advisor for Neonatal and Paediatric Surgery : National Association of Assistants in Surgical Practice (NAASP): 2003 to 2011

▪ Principal Investigator: The British Intestinal Failure Survey Group.(BIFS 2006 -2008)

▪ Principal Investigator: British Association of Paediatric Surgeons Congenital Anomalies Surveillance Group

▪ (2006 Gastroschisis, 2008 OA-TOF, 2009 CDH)

▪ Executive Member: BAPS (British Association of Paediatric Surgeons) executive member for the National Association of Assistants in Surgical Practice (NAASP)

▪ Surgical Tutor: North West Deanery (April 2005 to April 2010)

▪ Member : Paediatric Education Committee, Royal Manchester Children's Hospital: 2003 to date

▪ Local Clinical Excellence: 2007-08, 2008-09, 2009-10, 2010-11,2011-12

▪ Role Model for Medical Students: Central Manchester University Hospital - NHS Trust (2009 - 2011)

Courses United Kingdom based

▪ Neonatal Surgical Course for Paediatric Surgical Trainees: Oxford 2011 – date

▪ Pediatric Surgery Postgraduate Seminars- Vienna2011/2012

▪ British Association of Paediatric Surgeons National Training Day : 2007, 2010

▪ BSPHGAN- BAPEN training day - Harrogate 2010

▪ Operative Demonstrator at the Third National Conference of the NAASP. Cardiff International Arena, Cardiff, 22nd -25th February 2005

- Basic Surgical Techniques and Suturing: 2004 – 2008
 - Teacher at the Basic Surgical Skills Course for Assistant in Surgical Practice. Manchester 16th -17th February 2004
 - Operative Demonstrator at the Second National Conference of the National Association of Assistants in Surgical Practice (NAASP). York (UK) 25th–27th February 2004.

BAPS annual international congress - 23 July 2015 - Cardiff (UK)

Insufficienza intestinale neonatale: i traguardi e le mete nel 2015; 19 September 2015, Ospedale Pediatrico Bambino Gesù' - Roma

8th International Pediatric Intestinal Failure and Rehabilitation Symposium; 11-13 September 2014, Atlanta, (USA).

56th Conference of the Italian Society of Neonatology 28th-30th October 2013 “ Neonatal Surgical Emergencies

6th Italian Congress of Paediatric Surgery 08th -10th October 2013 Ferrara –Italy “Autologous Bowel Reconstruction

28th Annual Consumer/Clinician Conference, Cape Codder Resort and Spa, Hyannis, MA, Nontransplant Surgery Is Improving Outcomes in Patients with Short Bowel, 26th- 29th June 2013

2nd Pediatric Surgery Postgraduate Seminar: Cystic lung malformation and congenital diaphragmatic hernia a current clinical and surgical update. Operative demonstrator and lecturer on "Bowel Lengthening over 30 years: present and future." at the bowel lengthening workshop, Vienna, Austria 5th-6th December 2012

Red Cross webteaching – Management of short bowel 30th November 2012

Invited speaker at the 6th International Congress of the ANADP Association "Un filo per la vita" 2nd-3rd November 2012 Spello – Italy on "Short Bowel: lesson learnt over 30 years"

Invited speaker at the 7th International Pediatric Intestinal Failure and Rehabilitation Symposium 06th September 2012 on "Bowel lengthening approach" Pittsburgh, PA 6th-8th September 2012

Invited Speaker at "68th Congress of the Italian Association of Paediatrics" on "Intestinocorto....sempre meno corto" Rome – Italy 9th-11th May 2012

Invited speaker at "Problematiche Neonatologiche: esperti a confronto" on "Surgical Approach to short bowel" Bergamo, Italy 29th -30th March 2012

Invited Speaker at the University of Brescia Italy on "What is new in short bowel" Brescia – Italy 25th January 2012

Invited Speaker at "1st Pediatric Surgery Postgraduate Seminars- Intestinal Failure in Children- a current clinical and surgical update" on "Autologous Bowel Reconstruction" Vienna, 1st -2nd December 2011

Internazionale Associazione A.N.A.D.P. on "Autologous Bowel Reconstruction: how, when and why". "Un filo per la vita" Onlus Spello (PG) Italy 29th-30th October 2011

Invited Speaker at "L'Insufficienza Intestinale cronica in età pediatrica: novità nazionali ed internazionali nella nutrizione domiciliare di lungo termine" Congresso

Invited Speaker at: "L'Insufficienza Intestinale cronica benigna in età pediatrica: dal Management clinico al trapianto multiviscerale" on Short Bowel: "Indication to Bowel reconstructive surgery" Ospedale Pediatrico Bambino Gesù- Rome 21st -22nd October 2011

Invited speaker at the Ospedale Riuniti di Bergamo-Italy. The paediatric grand round: "Autologous Gastrointestinal Reconstruction" 18th May 2011

Invited speaker at the 62nd Simpson Smith Symposium: "Short Gut: surgical intervention" London 24th June 2010

Invited speaker at the BESPUGHAN Winter meeting. "Intestinal Lengthening in short bowel: to Step or

not to Step" Liverpool 29th January 2010

Invited Speaker at the Sheikh Khalifa Medical City: "Short Bowel – from Autologous Bowel to Transplantation" 08th December 2009 Abu Dhabi UAE

Invited speaker at the International Surgical Week on: "Does elongation surgery work?" 06th-11th September 2009 Adelaide, Australia

Guest lecturer at: "AB Parvulus. Alcuni Casi Clinici al di sopra di ogni sospetto" – San Luca di Montefalco (PG) Italy, 01st April 2006

Invited Speaker at the Jefferson University Philadelphia for Transplant Journal Club Meeting. "The child with Short Bowel: from autologous bowel to transplantation". Philadelphia, PA, USA 30th September 2005

Guest lecturer at the University Of Padua School Of Medicine on "Imperforate Anus" and Abdominal Wall Anomalies in the newborn". Padua, Italy October 05th -06th, 2004

Invited speaker (United Kingdom)

BAPS Winter Meeting Short Gut Surgery and indication for early intervention 25th November 2016 London

Neonatal Surgical Course "Structured approach to short bowel Oxford 8th September 2016

Curriculum vitae Antonino Morabito

Invited speaker at the BESPUGHAN Winter meeting. "Intestinal Lengthening in short bowel: to Step or not to Step" Liverpool 29th January 2010

Guest Lecturer at the Mini Symposium" From Cradle to grave- an update on Paediatric Surgery" Manchester Medical Society 13th January 2009

Guest Lecturer at the " Royal Lancaster Hospital" – on " The child with Gastroesophageal Reflux and Neurological Impairment: an alternative approach" Lancaster 11th June 2008

Guest Lecturer at the " Salford PCT" on " Total Oesophago Gastric Dissociation an alternative approach" Peel House-Salford PCT- Manchester 25th April 2008

Guest Lecturer at the "East Lancashire Paediatric Training Session" Royal Blackburn Hospital. " Surgical Aspect of NEC" Blackburn 25th January 2008

Invites speaker at the Brompton Hospital on: "Alternative surgery to Fundoplication in Neurologically

Impaired Children" Brompton Hospital- London 12th December 2007

Guest Lecture at the "Examination of the Newborn Study Day" on Surgical Emergencies at the University of Salford 13th November 2007

Guest Lecturer at the "Neonatal Study Day 2007" on Acute management of neonatal surgical emergencies. Royal Oldham Hospital 12th July, 2007

Guest Lecturer at the Paediatric Post Graduate Meeting on: Evidence against Fundoplication and the role of Dissociation surgery in Neurologically Impaired children with GOR. Tameside and Glossop Acute Service, 03rd May 2007

Guest Lecturer at the 103rd Annual Meeting of the Manchester Surgeons on: Imperforate Anus: prognostic profile and surgery for continence. Manchester 27th April 2007

Guest Lecturer at the Langsdales Neonatal Forum 2007 on: Surgical Management of Short Gut. Langsdale 28th Feb – 03rd March 2007

Invited Speaker at the Royal Bolton Hospital: Management of Gastroesophageal Reflux in Neurologically Impaired Children. 30th January 2007

Invited speaker at the National Training Day for Paediatric Surgical Registrars. TOGD: an alternative approach. Manchester 5th - 6th October 2006

Invited speaker at the Manchester Paediatric Club. " Total Oesophagogastric Dissociation: complications and outcome" 28th September 2006

Invited speaker at the University of Salford on " Gastrointestinal aspects in Neonatal Surgery" May 24, 2006

Invited lecturer at the Down's syndrome Medical Interest Group. The impact of Down's syndrome on the immediate and long-term outcomes of children with Hirschsprung's Disease. Royal Manchester Children's Hospital, May 12th 2006

Working Together: A multidisciplinary approach from admission to discharge" 28th April 2004,
Manchester.

Outreach and public engagement Ho attivamente promosso la chirurgia pediatrica a livello locale, nazionale ed internazionale.

La collaborazione con la Universita' di Manchester ed il Royal Manchester Children's Hospital ha permesso che Manchester diventasse il centro leader per il trattamento dello short bowel. Questo ha attratto pazienti da tutto il mondo. Ho inoltre cominciato un programma di ricerca in medicina rigenerativa e sulla distraction enterogenesis.

Dal 2010 sono invitato alla International Summer School per parlare della vita del chirurgo. Questo potrebbe spingere studenti di medicina a considerare la chirurgia pediatrica come carriera.

Ho ricevuto alcuni premi a livello nazionale ed internazionale.

Television and Newspapers:

BBC Christmas Children's Programme: (December 2010)

Appeared in newspaper stories regarding children with short bowel syndrome including:

"Thank you Manchester" from an international patient featured in the Manchester Evening news: July 2012.
