

Prof. FRANCESCO OLIVERI

CURRICULUM VITÆ ET STUDIORUM

Informazioni generali

Laurea con lode in *Scienze Biologiche* il 22/11/1982 presso l’Università degli Studi di Messina.

Laurea con lode in *Matematica* il 5/3/1985 presso l’Università degli Studi di Messina.

Dottore di Ricerca in Matematica il 20/12/1990 con una tesi di Dottorato dal titolo “*Analisi dei gruppi di invarianza e soluzioni di similarità di equazioni differenziali a derivate parziali*”.

Carriera

1 Novembre 1989 – 31 Ottobre 1990: Borsa di ricerca senior dell’Istituto Nazionale di Alta Matematica.

1 Novembre 1990 – 31 Ottobre 1999: Ricercatore di Fisica Matematica presso la Facoltà di Scienze Matematiche, Fisiche e Naturali dell’Università di Messina.

1 Novembre 1999 – 31 Ottobre 2001: Professore Associato di Fisica Matematica presso la Facoltà di Ingegneria dell’Università della Basilicata.

1/11/2001 – ...: Professore Ordinario di Fisica Matematica presso l’Università di Messina (attualmente Dipartimento di Scienze Matematiche e Informatiche, Scienze Fisiche e Scienze della Terra).

Altre informazioni

Dal 1986: afferente al Gruppo Nazionale per la Fisica Matematica (G.N.F.M.) dell’Istituto Nazionale di Alta Matematica (I.N.d.A.M.).

2004–2012: Coordinatore del Dottorato di Ricerca in Matematica dell’Università di Messina.

01/10/2012–31/09/2015: Direttore del Dipartimento di Matematica e Informatica dell’Università di Messina.

Coordinatore del Dottorato di Ricerca in Matematica (cicli XXI – XXVI) presso l’Università di Messina.

Componente del Collegio dei Docenti del Dottorato di Ricerca in Matematica e Informatica (cicli XXIX – XXXII), in convenzione tra le Università di Catania, Messina e Palermo.

Componente del Collegio dei Docenti del Dottorato di Ricerca in Matematica e Scienze Computazionali (cicli XXXIII – XXXIV), in convenzione tra le Università di Catania, Messina e Palermo.

È stato supervisore di 8 tesi di dottorato in Matematica e di una tesi di dottorato in Statistica.

Principali interessi di ricerca

L'attività di ricerca riguarda i seguenti argomenti:

1. Teoria e applicazioni dei gruppi di trasformazioni continue di Lie allo studio delle equazioni differenziali ordinarie e alle derivate parziali.
2. Termomeccanica dei continui (anche con variabili interne).
3. Propagazione ondosa non lineare.
4. Modellizzazione matematica.
5. Tecniche operatoriali per sistemi classici.
6. Computer algebra.
7. Statistica computazionale.

Attività organizzative

Componente del Comitato Organizzatore della Conferenza Internazionale "Nonlinear Hyperbolic Problems: Theoretical, Applied and Computational Aspects" (Taormina, 3-8 Aprile 1992).

Componente del Comitato Organizzatore del WASCOM 99 (10th International Conference on Waves and Stability in Continuous Media, Vulcano, 7-12 Giugno 1999).

Componente del Comitato Scientifico della conferenza internazionale "Granular Matter: Mathematical Modeling and Physical Instances" (Reggio Calabria, 25-29 Giugno 2005).

Componente del Comitato Scientifico delle conferenze internazionali CASC (Computer Algebra in Scientific Computing) delle edizioni 2002 (Yalta, Crimea) e 2003 (Passau, Germania).

Componente del comitato organizzatore dello IUTAM-ISIMM Symposium on "Mathematical Modeling and Physical Instances of Granular Flows" (Reggio Calabria, 14-18 Settembre 2009).

Chairman della conferenza IPERME11, XIV Incontro Nazionale sui Problemi di Tipo Iperbolico (Messina, 16-18 Febbraio 2011).

Chairman della conferenza M^2FM^3A , “I Metodi e i Modelli della Fisica Matematica e la Moderna Matematica Applicata” (Messina, 28-29 Novembre 2014).

Componente del Comitato Scientifico della “4th International Conference on Recent Trends in Nonlinear Phenomena” (Messina, 18-20 Settembre 2017).

Componente del Comitato Organizzatore della conferenza internazionale “micro to MACRO Mathematical Modelling in Soil Mechanics” (Reggio Calabria, 29 Maggio – 1 giugno 2018).

Componente del Comitato Scientifico del Workshop ”Quantum Mechanics: Analysis and Ideas” (Messina, 19 Settembre 2018).

Editor (con A. Donato) del volume “Nonlinear Hyperbolic Problems: Theoretical, Applied and Computational Aspects”. Notes on Numerical Fluid Mechanics, vol. 43, Vieweg, Wien, 1993.

Editor (con V. Ciancio, A. Donato e S. Rionero) del volume “Proceedings Wascom 99, 10th International Conference on Waves and Stability Analysis in Continuous Media”, World Scientific Publishing Co., Singapore, 2001.

Autore di più di 90 articoli scientifici di Fisica Matematica e Matematica Applicata pubblicati su riviste scientifiche e di un libro dal titolo ”Algoritmi e Programmazione in C”, pubblicato da Aracne Editrice, Roma, 2009. Ha curato l’edizione italiana del libro “Surreal numbers” di D. E. Knuth presso FrancoAngeli Editore, 2016.

Referee di molti giornali scientifici (tra gli altri: Journal of Mathematical Analysis and Applications, Nonlinear Dynamics, International Journal of Engineering Science, Mathematical Methods in the Applied Sciences, Journal of Mathematical Physics, International Journal of Non-linear Mechanics, Journal of Physics A, Acta Mechanica, Meccanica, Acta Applicandae Mathematicae, Chaos, Journal of Nonlinear Mathematical Physics, International Journal of Theoretical Physics, Symmetry, Mathematics).

Membro di diverse commissioni di concorso di Ricercatore, di Professore Associato e di Professore Ordinario.

Progetti di Ricerca

Coordinatore di diversi progetti di ricerca locali dell’Università di Messina. Componente del PRIN 2000, Coordinatore Prof. T. Ruggeri (Non Linear Mathematical Problems of Wave Propagation and Stability in Models of Continuous Media).

Componente del PRIN 2003, Coordinatore Prof. Ruggeri (Nonlinear Mathematical Problems of Wave Propagation and Stability in Models of Continuous Media).

Coordinatore locale del PRIN 2005, Coordinatore Prof. T. Ruggeri (Nonlinear Propagation and Stability in Thermodynamical Processes of Continuous Media).

Ha svolto attività didattica tenendo insegnamenti di Fisica Matematica, Matematica Applicata, Programmazione, Algoritmi e Strutture Dati presso le Università di Messina e della Basilicata, e ha tenuto corsi specialistici di dottorato presso l'Università di Kaiserslautern (Germania), l'Università di Messina, l'Università della Basilicata, l'Università del Salento e l'Università di Zittau/Gorlitz (Germania).

Ha tenuto il corso avanzato dal titolo “Lie symmetries of differential equations and applications” alla XXXIV Scuola Estiva di Fisica Matematica, Ravello (Italia), 14-19 Settembre 2009.

Conferenze su invito

1. Conferenza su invito al Workshop “Local and Nonlocal Geometry of PDEs and Integrability” (Trieste, 8–12 Ottobre 2018).
2. Conferenza su invito al Workshop ”Quantum Mechanics: Analysis and Ideas” (Messina, 19 Settembre 2018).
3. Conferenza su invito al Workshop ”Phonon-hydrodynamics in solids and superfluids” (Palermo, 25-27 gennaio 2018).
4. Conferenza su invito alla XIX International conference ”Waves and Stability in Continuous Media” (Bologna, 12-16 Giugno 2017).
5. Conferenza su invito al Workshop ”Advances in Mathematics for Technology” (Catania, 9-11 Ottobre 2017).
6. Conferenza su invito al Workshop ”Integrable systems and related mathematical structures” (Goettingen, Germania, 30 Marzo - 1 Aprile 2016).
7. Conferenza su invito al Workshop on “Integrable Nonlinear Equations” (Mikulov, Repubblica Ceca, 18-24 Ottobre 2015).
8. Conferenza su invito alla XVIII International conference on “Waves and Stability in Continuous Media” (Cetraro, 1–5 Giugno 2015).

9. Conferenza su invito al "Seventh China-Italy Colloquium on Applied Mathematics" (Cinisi, 8–11 Settembre 2014).
10. Conferenza su invito alla conferenza "Symmetry and Perturbation Theory 2014" (Cala Gonone, 25–30 Giugno 2014).
11. 5 Conferenze su invito al Compact Course on "Lie group analysis" organized by prof. L. A. Bordag in Zittau, Germania (14–27 Ottobre 2013).
12. Conferenza su invito alla XVII International conference on "Waves and Stability in Continuous Media" (Levico Terme, 17–21 Giugno 2013).
13. Conferenza su invito alla XVI International conference on "Waves and Stability in Continuous Media" (Brindisi, 12–18 Giugno 2011).
14. Conferenza su invito alla conferenza "Symmetry and Perturbation Theory 2011" (Otranto, 6–11 Giugno 2011).
15. Conferenza su invito alla conferenza "Geometry and Symmetry of Differential Equations" (Santa Marinella, 17–22 Maggio 2010).
16. Conferenza su invito al "Fifth China-Italy Colloquium on Applied Mathematics" (Acireale, 27–30 Settembre 2010).
17. 6 lezioni nel corso avanzato "Lie symmetries of differential equations and applications" alla XXXIV Summer School of Mathematical Physics (Ravello, Settembre 2009).
18. Conferenza su invito alla conferenza IPERBA, 13th Meeting on Hyperbolic Equations (Bari, 11–13 Febbraio 2009).
19. Conferenza su invito alla XIV International Conference on "Waves and Stability in Continuous Media" (Scicli, 29 Giugno – 6 Luglio 2007).
20. Conferenza su invito alla conferenza "Symmetry and Perturbation Theory 2007" (Otranto, 2–9 Giugno 2007).
21. Conferenza su invito alla conferenza "Asymptotic Methods in Nonlinear Wave Phenomena" (Mondello, 5–7 Giugno 2006).

Attività didattica

L'attività didattica, presso l'Università di Messina e l'Università della Basilicata, ha riguardato e riguarda discipline di Fisica Matematica, Matematica Applicata, Programmazione e Teoria degli Algoritmi. Include, altresì, vari corsi avanzati di dottorato presso le Università di Messina, della Basilicata e del Salento.

Elenco delle pubblicazioni

Pubblicazioni su Riviste

1. S. Salleo, M. A. Lo Gullo, F. Oliveri. Hydraulic Parameters Measured in 1-Year-Old Twigs of some Mediterranean Species with Diffuse-Porous Wood: Changes in Hydraulic Conductivity and Their Possible Functional Significance. *Journal of Experimental Botany*, **36**, 1–11, 1985.
