PRESENT POSITION

Positions

2018 Apr	Full Professor of Dental and Stomatological Diseases (<i>"Professore Ordinario di Malattie Odontostomatologiche"</i>) Department of Surgical, Medical, Molecular Pathology and Critical Care Medicine, University of Pisa, Pisa (Italy)
2012 Dec	Coordinator of the sub-unit of in Periodontology, Halitosis and Periodontal Medicine (<i>"Percorso Diagnostico-Terapeutico in Parodontologia, Alitosi e Medicina Parodontale"</i>) University Hospital of Pisa, Hospital S.Chiara, Pisa (Italy)

Work Distribution & Academic Function

Work Distribution	<p>The dual position of Full Professor (University of Pisa) and Coordinator of the sub-unit (University Hospital) allows for a balanced distribution among the various academic duties.</p> <p>The contracted time is 38 hours per week. The commitment is comprehensive of all the academic activities such as research, teaching, clinical work and administration without official division of duties, thus varying according to the needs and the course of the academic semester.</p>
Academic Function	<p>The position of Full Professor (<i>"Professore Ordinario"</i>) is regulated by the Italian law (#240/2010 Art.6) and it comprises research activity and the teaching at both undergraduate and postgraduate level. The overall commitment to student's services is minimum 250 hours annually. This consists of teaching, tutoring, exams and student's support at any level. Prof. Graziani teaches and performs research exclusively oriented to Periodontology.</p> <p>The joint position with the University Hospital allows also to perform clinical activity oriented to teaching, research and patient care. Prof. Graziani has been performing periodontology and periodontal surgery since his enrolment and from 2012 he has been leading the clinical periodontal activity as coordinator of the Sub-Unit of Periodontology.</p>

Honorary Positions

2017 May	Honorary Professor Faculty of Dentistry, Hong Kong SAR (China)
2018 Apr	Visiting Professor in Periodontology Eastman Dental Institute - University College of London, London (UK)

Secondary Studies

1993	Scientific Maturity Scientific Lyceum "U.Dini", Pisa (Italy)
------	---

University Studies

1998	<p>Doctor in Dentistry and Prosthodontics (110/110 Cum Laude) University of Pisa, Pisa (Italy)</p> <p>Thesis: Experimental Evaluation of the Therapeutic Efficacy of Hydrogen Peroxide on Tissues and Microvascularization of Radicular Cysts of the Jaw Bones (<i>"Valutazione Sperimentale dell'Efficacia Terapeutica del Perossido d'Idrogeno sui Tessuti e sulla Microvascolarizzazione delle Cisti Radicolari delle Ossa Mascellari"</i>)</p>
------	--

Post-Graduate Studies

2002	<p>PhD in Oral and Maxillo-Facial Surgery Second University of Naples, Naples (Italy)</p> <p>Thesis: Research Methods on Post-operative Tissue Modifications of Surgery of the Jaw Bones (<i>"Metodiche di Ricerca nelle Modificazioni Tissutali Postoperatorie dell Chirurgia delle Ossa Mascellari"</i>)</p>
2003	<p>Training on Scientific Procedures under the Animals Institute of Biology, University College of London, London (UK)</p>
2004	<p>Master of Clinical Dentistry in Periodontology (Distinction) Eastman Dental Institute, University College of London, London (UK)</p> <p>Thesis: The Dynamics of Periodontal Wound Healing Following Guided Tissue Regeneration Therapy. A Longitudinal Study in Monkeys in Dehiscence Type Defects</p>
2005	<p>EFP Certificate in Periodontology European Federation of Periodontology</p>
2008	<p>Master in Clinical Experimental Pharmacology and Pharmaceutical Medicine University of Pisa, Pisa (Italy)</p>
2010	<p>Specialty in Oral Surgery (70/70 Cum Laude) University of Naples - Federico II, Naples (Italy)</p> <p>Thesis: Acute Phase Reaction after Periodontal Surgery: Experimental Clinical Trial (<i>"Reazione di Fase Acuta dopo Chirurgia Oro-Parodontale: Clinical Trial Randomizzato"</i>)</p>

TRAINING AND EDUCATION

1993 - 1998	University Studies of the Degree in Dentistry and Prosthodontics University of Pisa Pisa (Italy)
1999 - 2002	PhD studies Commenced in 1999 at the University of Pisa (Italy) (ancillary academic site of the Second University of Naples, formally issuing the PhD diploma) and continued after 2001 at the University College of London Pisa (Italy), London (UK)
2001 - 2004	Full Postgraduate Training and Education Master in Clinical Dentistry in Periodontology, a full-time programme recognized by the European Federation of Periodontology. Eastman Dental Institute of the University College of London London (UK)
2003	Training on Animal Research Institute of Biology of the University College of London London (UK)
2007 - 2010	Specialty in Oral Surgery University of Pisa (ancillary academic site of the University of Naples - Federico II, formally issuing the Specialty Diploma) Pisa (Italy)
2008	Master Clinical Experimental Pharmacology and Pharmaceutical Medicine University of Pisa Pisa (Italy)

PROFESSIONAL ACTIVITIES (POST-GRADUATE)

Professional History

Private Practice

1999-2001 2005-2008	Part-time Private Dental Practice at Dental Clinics of Dott. Paolo Graziani, Pisa and Vicopisano (Italy)
2004-2005	Part-time Private Practice Limited to Periodontology at Maple Lea Dental Practice, Hind Head (UK)
2009-2012	Intramural Periodontal Private Practice at the University Hospital of Pisa
2012 – present	Part-time Private Practice Limited to Periodontology at CIDEP (“ <i>Centro d’Igiene Dentale e Parodontologia</i> ”), Pisa (Italy)

Professional Academic History

University of Pisa (Italy)

2014 - 2018	Associate Professor of Dental and Stomatological diseases (<i>"Professore Associato di Malattie Odontostomatologiche"</i>) Department of Surgical, Medical, Molecular Pathology and Critical Care Medicine
2012 - 2014	Assistant Professor of Dental and Stomatological diseases (<i>"Ricercatore Universitario di Malattie Odontostomatologiche"</i>) Department of Surgical, Medical, Molecular Pathology and Critical Care Medicine
2005 - 2012	Assistant Professor of Maxillo-Facial Surgery (<i>"Ricercatore Universitario di Chirurgia Maxillo-Facciale"</i>) Department of Neurosciences / Department of Surgery
2001 – 2004	Ad-hoc Professor (<i>"Professore a Contratto"</i>) Degree in Dentistry and Prosthodontics
2003	Research Fellow (<i>"Borsista di Studio"</i>) Department of Neurosciences
1999 – 2004	Assistant during exam sessions in Oral Surgery (<i>"Cultore della Materia"</i>) Degree in Dentistry and Prosthodontics

University Hospital of Pisa (Italy)

2005-2010	Clinical Consultant in the Unit of Dentistry and Oral Surgery
2010-2012	Clinical Consultant with High Specialty in Surgical Procedures in Periodontology in the Unit of Dentistry and Oral Surgery

University College of London (UK)

2012 - 2017	Honorary Senior Clinical Lecturer in Periodontology Eastman Dental Institute, London (UK)
2005-2012	Honorary Clinical Lecturer in Periodontology Eastman Dental Institute, London, UK

University of Hong Kong SAR (China)

2013 - 2014	Honorary Assistant Professor Faculty of Dentistry, Hong Kong (China)
-------------	---

TEACHING

Undergraduate Teaching

Degree in Dentistry and Prosthodontics– University of Pisa (Italy)

Academic Year	Course Name	Module Name	Level Taught	Extent of Involvement	Exams
2001/2002 2002/2003 2003/2004	Oral Pathology	Tissue Engineering and Research Methods in Oral Surgery	3 rd year	20 hours	-
2007/2008 2008/2009 2009/2010 2010/2011 2011/2012	Oro-Dento-Periodontal Surgery	Oral Surgery	3 rd year	CFU 3	Oral
2010/2011 2011/2012 2013/2014	Medical and Surgical Diagnosis and Therapy of Head and Neck	Maxillo-Facial Surgery	3 rd year	CFU 1-3	Oral
2012/2013 2013/2014	Oro-Dento-Periodontal Surgery 2	Periodontology and Implantology	4 th year	CFU 2	Oral
2012/2013 2013/2014	Oral Rehabilitation 3*	Periodontology and Implantology	5 th year	CFU 1	Oral
2013/2014 2014/2015	Stomatological Disciplines	Periodontology	4 th year	CFU 7	Oral
2014/2015 2015/2016 2016/2017 2017/2018 2018/2019	Restorative Dentistry and Periodontology*	Periodontology	4 th year	CFU 6	Oral
2015/2016 2016/2017 2017/2018 2018/2019	Orthodontics and Periodontology	Periodontology	5 th year	CFU 6	Oral

*** Courses with managerial and directive roles**

Each CFU comprises 10 hours of direct teaching

Degree in Dentistry and Prosthodontic– University of Siena (Italy)

Academic Year	Course Name	Module Name	Level Taught	Extent of Involvement	Exams
2016/2017 2017/2018 2018/2019	Periodontology	Periodontology	4th year	CFU 4	Written

Degree in Dental Hygiene– University of Pisa (Italy)

Academic Year	Course Name	Module Name	Level Taught	Extent of Involvement	Exams
2002/2003 2003/2004 2004/2005 2005/2006 2006/2007 2008/2009 2009/2010 2010/2011 2011/2012	Oro-Dental Disciplines	Oral Pathology	2 nd year	CFU 1	Oral
2011-2012 2017-2018 2018-2019	Periodontology and Implantology*	Periodontology	2 nd year	CFU 3	Oral

* *Courses with managerial and directive roles*

Syllabus of the Courses in Periodontology**Syllabus 1****1. Anatomy of the Periodontium**

Anatomy: Gum, Periodontal ligament, Root cement, Alveolar bone, The interdental papilla: form and classification, Periodontal vascularization, Periodontium innervation.

2. Epidemiology of periodontal pathologies

Classical Studies, Incidence of periodontal diseases, Prevalence of periodontal diseases.

3. Etiology and Pathogenesis of Periodontal Diseases

Oral Biofilm and Periodontal Diseases, Oral Bacteria, Microbial etiology of periodontal disease, Criteria for defining periodontal pathogens, Periodontal pathogens, Microbial complexes, Structure of dental plaque, Plaque formation, Dental plaque as a biofilm, Tartar.

Pathogenesis of Periodontitis, Prerequisites for the onset and progression of periodontal disease, Clinically healthy gingiva, Gingival inflammation, Different types of lesions in gingivitis and periodontitis, Host-parasite interaction, Host defense processes.

4. Susceptibility

Risk Factor definition, Non-Modifiable risk factors: age, gender, race. Genetics and Periodontology. Modifiable risk factors: Diabetes mellitus, puberty, pregnancy, menopause, osteoporosis, HIV, obesity, smoking. Mechanisms of action.

5. Periodontal medicine

Rationale for correlations between periodontitis and systemic diseases, Cardiovascular diseases, Diabetes and obesity, Obstetric complications, Other systemic diseases related to periodontitis

6. Clinical Periodontology

a. Screening, Screening and Diagnosis of Periodontitis, Anamnesis of the periodontal patient, Clinical examination of the periodontal patient: periodontal probing, Radiographic examination of the periodontal patient: radiographic status, Examination of volatile gases

b. Indices of periodontal disease

Probing Pocket Depth (PPD), Clinical Attachment Level (CAL), Recession (REC), Bleeding index (BOP), Involvement of furcations, Dental mobility, Plaque indices (PI and FMPS), Gingival indices (GI and FMBS)

7. 1999 Classification of Periodontal Diseases

a. Plaque-induced gingival disorders

Criteria for classification of gum disease, Plaque-induced gingivitis, Gingival disorders associated with endogenous hormones, Gingival disorders associated with the use of drugs, Gingival disorders associated with systemic diseases, Gingival disorders associated with malnutrition, Gingival disorders associated with heredity, Gingival disorders associated with ulcerative lesions, Treatment of plaque-induced gingival disorders

b. Chronic periodontitis

Clinical aspects and general characteristics of chronic periodontitis, Gingivitis as a risk of periodontitis, Predisposition to chronic periodontitis, Prevalence of chronic periodontitis, Progression of chronic periodontitis, Risk factors for chronic periodontitis, Scientific bases for the treatment of chronic periodontitis

d. Aggressive periodontitis

Epidemiology, Etiology and pathogenesis, Diagnosis, Principles of therapeutic intervention

e. Necrotizing periodontal disease

Prevalence, Clinical features, Diagnosis, Histopathology, Microbiology, Host response and predisposing factors

f. Periodontal abscess

Classification, Prevalence, Pathogenesis and histopathology, Microbiology, Diagnosis

g. Endodontics and periodontology

- Periodontal infectious processes of endodontic origin, iatrogenic root perforations, Vertical root fractures, External root resorption

8. 2018 Classification of Periodontal Diseases

a. The new classification: updates and differences from the 1999 Classification

b. Periodontal Health, Gingival Diseases and Conditions

Case definitions for Periodontal Health and Gingivitis, Gingivitis: Dental Biofilm and Non-dental Biofilm Induced Gingivitis

c. Periodontitis

Necrotizing Periodontal Diseases, Staging and Grading of Periodontitis: Framework and Case Definitions, Periodontitis as a Manifestation of Systemic Diseases

d. Other Conditions Affecting the Periodontium

Systemic Diseases or Conditions Affecting the Periodontium, Periodontal Abscesses and Endodontic-Periodontal Lesions, Mucogingival Deformities and Conditions, Traumatic Occlusal Forces, Tooth and Prosthesis Related Factors

e. Peri-implant Diseases and Conditions

Peri-Implant Health, Peri-Implant Mucositis, Peri-Implantitis, Peri-Implant Soft and Hard Tissue Deficiencies, Case Definitions and Diagnostic Considerations

Syllabus 2

1. Periodontal Causal Therapy

a. The importance of oral hygiene, Motivation for oral hygiene, Oral hygiene instructions

b. Mechanical control of supragingival plaque, Dental brushing with manual toothbrushes, Dental brushing with electric toothbrushes, Interdental brushes, Dental floss

c. Chemical control of supragingival plaque, Rationale of chemical plaque control, Agents for chemical plaque control, Toothpastes, Mouthwashes, Chlorhexidine, Evaluation of agents and chemical products

d. Non-surgical therapy, Methods for the non-surgical removal of debris from root surfaces, Debridement, Scaling and root planing, Manual instrumentation: curette or scaler, Mechanical instrumentation: sonic and ultrasonic scalers, Effects of mechanical debris removal on subgingival biofilms, Scaling and smoothing of the roots according to a conventional quadrant scheme, full-mouth approaches, Reevaluation

e. Use of antibiotics in periodontal therapy, Rationale of antibiotic therapy, Evaluation of antibiotics used in periodontal therapy, Local antibiotic therapy, Systemic antibiotic therapy, Local / systemic antibiotic administration protocols

2. Indications and Rationale of periodontal surgery

Instruments, Objectives of surgical treatment, Indications for surgical treatment, Contraindications for surgical treatment, Local anaesthesia in periodontal surgery, General guidelines for periodontal surgery

3. Periodontal surgery: conservative and resective therapy

a. Conservative surgical therapy, Modified Kirkland flap, Modified Widman's Flap, Preservation of the papilla, Modified Papilla Preservation Flap, Simplified Papilla Preservation Flap, Single Flap Approach

b. Resective surgical therapy, Gingivectomy, Apically Repositioned Flap, Distal wedge technique, Pocket elimination surgery, Clinical crown lengthening

4. Regenerative periodontal therapy

Classification and diagnosis of periodontal bony defects, Biological Rationale of periodontal regeneration: classical studies, Guided tissue Regeneration (GTR), Biomimesis: amelogenines and growth factors, Clinical indications, Factors modifying healing, Membrane materials in regenerative surgery, Replacement bone grafts, biologically active regenerative materials, Membranes combined with other regenerative techniques, Clinical strategies

5. Mucogingival therapy: periodontal plastic surgery

Aetiology of gingival recession, Gingival increase, Root coverage, Coronally Repositioned Flaps, Laterally Repositioned Flaps, Free Epithelial grafts, Sub-epithelial grafts, Bilaminar techniques

6. Peri-implant diseases

Mucositis and Peri-implantitis, Etiopathogenesis, Microbiology, Clinical Parameters, Non-surgical treatment, Surgical treatment.

7. Implantology in the periodontal patient

Extractions in the periodontal patient, Ridge preservation, Guided Bone Regeneration

8. Treatment of teeth with involvement of the furcation area

Terminology and anatomy, Diagnosis and differential diagnosis, Therapy, Prognosis

9. Supportive periodontal therapy

Basic paradigms for the prevention of periodontal disease, Patients at risk of periodontitis due to lack of periodontal support therapy, Periodontal support therapy in patients with periodontitis, Continuous assessment of risk at multiple levels, Objectives of periodontal support therapy

Degree in Dentistry and Prosthodontic– University of Pisa (Italy)

Academic Year	Course Name	Syllabus
2012/2013 2013/2014	Oro-Dento-Periodontal Surgery 2	Syllabus 1 (w/o chapter 8) + chapter 1 of Syllabus 2
2012/2013 2013/2014	Oral Rehabilitation 3	Syllabus 2 starting from Chapter 2
2013/2014 2014/2015	Stomatological Disciplines	Syllabus 1 (w/o chapter 8)
2014/2015 2015/2016 2016/2017 2017/2018 2018/2019	Restorative Dentistry and Periodontology	Syllabus 1 (chapter 8 not until a.y. 2018/2019)
2015/2016 2016/2017 2017/2018 2018/2019	Orthodontics and Periodontology	Syllabus 2

Degree in Dentistry and Prosthodontic– University of Siena (Italy)

Academic Year	Course Name	Syllabus
2016/2017 2017/2018 2018/2019	Periodontology	Syllabus 1 (chapter 8 not until a.y. 2018/2019) + Syllabus 2

Degree in Dental Hygiene– University of Pisa (Italy)

Academic Year	Course Name	Syllabus
2011-2012 2017-2018 2018-2019	Periodontology and Implantology	Syllabus 1 (chapter 8 not until a.y. 2018/2019) + chapter 1 of Syllabus 2

Students' Evaluation, University of Pisa

2014/2015	Periodontology (4th year) <i>Is the teacher triggering interest? 3,9</i> <i>Is the teacher clear? 3,6</i>
2014/2015	Periodontology (5th year) <i>Is the teacher triggering interest? 3,7</i> <i>Is the teacher clear? 3,6</i>
2016/2017	Periodontology (5th year) <i>Is the teacher triggering interest? 3,9</i> <i>Is the teacher clear? 3,6</i>

(scale 1 - 4; 1 = totally negative up to 4 totally positive)

Post-Graduate Teaching

Masters recognized by the European Federation of Periodontology

Year	Master	Involvement
2006 – present	Master in Clinical Periodontology Eastman Dental Institute, University College of London, London (UK)	Lectures and Seminars (20 hours/year approximately) - Furcation Defects Treatment - Conservative Periodontal Surgery - Management of Perio Practice
2017	Master in Periodontology University of Berne, Berne (Switzerland)	Lecture and Seminar: (8 hours approximately) - Periodontal Surgery
2017	Master in Periodontology University of Liege, Liege (Belgium)	Lecture and Seminar: (10 hours approximately) - Periodontal Medicine - Periodontal Surgery
2018 - present	Master in Periodontology University of Turin, Turin (Italy)	Lectures: (12 hours/year approximately) - Periodontal Medicine - Periodontal Surgery

Masters

2006	Master in Implantology Second University of Naples, Naples (Italy) “Regenerative Surgery and Tissue Engineering”
2006 - 2007	Master in Oral Surgery and Implantology University of Chieti, Chieti (Italy) “Regenerative Surgery and Tissue Engineering”
2008 - 2009	Master of Science in Periodontology University of Central Lancashire, Preston (UK) “Furcation defects Treatment” “Periodontal Surgery”
2008 - 2017	Master in Oral Surgery University of Pisa, Pisa (Italy) “Periodontal Conservative Surgery” “Regenerative Surgery”
2009 - 2011 2014 – 2017	Master in Periodontology University of Turin, Turin (Italy) (before EFP accreditation) “Periodontal Conservative Surgery” “Periodontal Medicine”
2011 2013	Master in Periodontology University of Rome– La Sapienza, Rome (Italy) “Periodontal Medicine”
2013	Master in Implantology University of Parma, Parma (Italy) “Peri-Implantitis”
2014	Master in Oral Surgery University of Foggia, Foggia (Italy) “Periodontal Surgery”
2018	Master in Soft tissue management around Teeth and Implants University of Bologna, Bologna (Italy) “Non Surgical Periodontal Treatment”

The commitment in these Masters has usually been a 4-hour lecture

Higher Education Perfectioning Courses (“Corsi di Perfezionamento”)

2005 - 2006	Perfectioning Course in Oral Surgery University of Naples – Federico II, Naples (Italy)
2009 2011	Perfectioning Course in Clinical Periodontology, University of Chieti, Chieti (Italy)
2010-2011	Perfectioning Course in Implantology, University of Brescia, Brescia (Italy)
2011-2012	Perfectioning Course in Implantology, University of Florence, Florence (Italy)

The commitment in these Courses has usually been a 4-hour lecture

Continuing Education

2012 - present	Periocampus Prof. Graziani is the Founder of Periocampus, a Full-immersion Course in Periodontology for Dental Hygienists and Dentists. The course is divided into successive levels; Periocampus Foundation is a Theoretical-Practical Course in Non-surgical Periodontal Therapy, Periocampus Advanced is a Clinical Practice Course in Non-surgical Periodontal Therapy, Periocampus Surgical focuses on Periodontal Surgery (only for Dentists) The involvement is approximately 36 hours/year.
2016- present	Italian Society of Periodontology - Postgraduate course in Periodontology Lectures on Non-surgical and Surgical Periodontal Therapy. The involvement is approximately 12 hours/year.
2018	University of Milan San Raffaele – Postgraduate Course in Reconstructive Surgery of Periodontal and Peri-implant Tissues 5-hour lecture on “Etio-pathogenesis and diagnosis of periodontal and peri-implant diseases”
2017	University of Bologna – Course on the optimal choice in Surgical Periodontology and Implantology 4-hour lecture on “Periodontal Surgery”

Fields of Research

Regenerative Dentistry

Prof. Graziani has shown scientific interest and has been actively involved in research in Regenerative Dentistry and Periodontal and Bone Regeneration since the early stages of his academic career. In particular, he has performed numerous research at cell, animal and clinical level focusing on wound healing and regeneration which resulted in various publications. The focus of his research activity has been the rationale of regenerative mechanisms and the periodontal regeneration of complex defects such as dehiscence, furcation, suprabony and mixed defects.

His research in the field received international recognitions, such as the R. Earl Robinson Periodontal Regeneration Award of the American Academy of Periodontology, the award dedicated to Periodontal Regeneration.

Recently he has been invited to participate as a reviewer at the next European Workshop on Guidelines in Periodontology on the topic of Regeneration of Furcation Defects. He is also the centre-coordinator in a pan-European study on regeneration of mixed defects (furcation + intrabony) lead by the ERGOperio Research Foundation.

In this particular field he published 17 papers in indexed journals and one of these (publication # 17) has been quoted 214 times, remaining his highest quoted paper.

Studies	<p>Prof. Graziani undertook formal education focusing on regenerative dentistry. In this regard it is important to mention:</p> <ul style="list-style-type: none"> ✓ The diploma on research under animal that allowed him to perform animal surgery to test regenerative materials ✓ The thesis of his post-graduate programme is dedicated to the regeneration of periodontal dehiscence defects
Awards	<p>He is the recipient of two research awards (see dedicated section) for his studies on regeneration.</p> <ul style="list-style-type: none"> ✓ <i>2nd Prize for graduate Research</i> - European Federation of Periodontology, (publication # 9) ✓ <i>R. Earl Robinson Periodontal Regeneration Award</i> - American Academy of Periodontology, (publication # 33)
Research Experience	<p>He has performed Research on Regenerative Dentistry in the following institutions:</p> <ul style="list-style-type: none"> ✓ <i>University of Aarhus, Department of Periodontology</i> where he performed animal surgery on rats' calvarias to assess the impact of stem cells on bone regeneration (publication # 27) ✓ <i>University of Gotheburg, Department of Periodontology</i> where he performed histological analysis on monkeys on regenerated periodontium (publications # 9 & # 16)
Research Contracts & Grants	<p>At the present is performing studies on regenerative materials/devices financially supported by Straumann AG, Basel (Switzerland) and Sunstar AG, Geneva (Switzerland)</p>

Periodontal Medicine

The relationship between oral and systemic health has been the other main interest of Prof. Graziani. In particular, the involvement of Periodontitis with Cardio-Vascular Disease and Diabetes has not just been the focus of a consistent portion of his research activity, but also the topic of a project that has received a substantial grant (819.000 euros). This allowed for the establishment of a permanent clinical unit at the University Hospital of Pisa involving Periodontists, but also Internal Medicine Doctors, Diabetologists and Rheumatologists.

He has been a participant of the historical, first joint workshop between the EFP and AAP on the relationships between Periodontitis and Systemic Health and a reviewer of the workshop between EFP and the International Diabetology Federation.

One of the fields in which he has expanded his research interest is the post-operative acute phase reaction and the methods to its modulation. Moreover, growing importance has been given to the patients' quality of life and overall well-being. This research area has been explored with clinical models of both non-surgical and surgical periodontal treatment.

On these topics he published 13 papers in indexed journals and one of these (publication # 37) has been quoted 203 times.

Studies	<ul style="list-style-type: none">✓ He obtained a Master in Experimental Pharmaceutical Research✓ The thesis of his oral surgery specialty is dedicated to the acute phase reaction after periodontal surgical treatment
Awards	<p>He is a recipient of two research awards (see dedicated section) for his studies on Periodontal Medicine.</p> <ul style="list-style-type: none">✓ <i>Jaccard Prize</i> - European Federation of Periodontology, (publication # 51)✓ <i>Goldman Prize</i> – Italian Society of Periodontology and Implantology, (publication # 67)
Research Contracts & Grants	A significant portion of his grants are designed to further investigate oral and systemic relationships.

Periodontal Surgery

A significant portion of Prof. Graziani's research has been devoted to the understanding of periodontal surgical interventions and the performance of different types of flaps. In this regard an Evidence Based Approach has been chosen and meta-analyses have been produced.

Oral Hygiene

A growing field of interest is the area of gingivitis management in which he also acted as an expert of the European Workshop 2014. Furthermore, the usage of Chlorhexidine has been extensively studied.

Research Courses

May 2018	Good Clinical Practice Review of ICH-6 of personnel working under Clinical Research Studies

Collaborations

Prof. Graziani has collaborated with numerous Departments of Periodontology Worldwide and International Research Groups

(below reported groups are those with which at least 2 papers have been produced)

2004 - present	Department of Periodontology Eastman Dental Institute, University College of London, London (UK)
2004 - present	Ergoperio
2012 - present	ETEP (Etiology and Therapy of Periodontal Diseases) Research Group, Complutense University, Madrid (Spain)
2012 - present	Chair of Periodontology University of Florence, Florence (Italy)
2014 - present	Department of Periodontology University of Bonn, Bonn (Germany)
2014 – present	Department of Periodontology University of Athens, Athens (Greece)
2017 – present	Department of Periodontology ACTA, University of Amsterdam, Amsterdam (Holland)
2017 - present	Department of Periodontology University of Hong Kong, Hong Kong SAR (China)
2018 – present	Department of Periodontology University of Zagreb, Zagreb (Croatia)
2018 – present	Department of Epidemiology and Public Health University College of London, London (UK)
2004-2006	Department of Periodontology University of Gothenburg, Gothenburg (Sweden)
2003-2005	Department of Periodontology University of Aarhus, Aarhus (Denmark)
2005 2018	Department of Periodontology University of Berne, Berne (Switzerland)
2008-2009	Chair of Periodontology University of Chieti, Chieti (Italy)

Research Team

University of Pisa

Prof. Graziani	Team Leader
Dr. Nisi	DMD, MSci Assistant Professor

Dr. Gennai	DMD, MSci, PhD post-doc research fellow
Dr. Petrini	DMD, MSci, PhD post-doc research fellow
Dr. Karapetsa	DMD, Msci, PhD post-doc research fellow
Dr. Peric	DMD, MSci PhD student
Dr. Marhl	DMD, MSci PhD student

CLINICAL ACTIVITIES

Prof. Graziani has been practicing Dentistry since January 1999. After 2001 he has focused primarily to Periodontology. He has now performed thousands of periodontal treatments and approximately 2000 surgical interventions.

Institutional Clinical Involvement

Positions

2005-2018	Consultant University Hospital of Pisa
2010-2012	Consultant with High Specialty in Surgical Procedures in Periodontology University Hospital of Pisa
2009-2012	Intramural Private Practice limited to Periodontology University Hospital of Pisa
2012 - 2019	Coordinator of the Sub-Unit of “Periodontology, Halitosis and Periodontal Medicine”, University Hospital of Pisa
2012 – 2019	Founder and lead clinician of the “Centre of Dental Hygiene and Periodontology” Private Clinical Centre

Clinical activities

Non-surgical periodontal therapy

Technique	Description	Expertise level
Conventional approach	Root Surface Debridement Scaling and Root Planning	Master
Full-mouth approach	Laser and Air-polisher application Adjunctive devices/drugs application	Master
Non-surgical treatment of peri-implantitis		Master

Surgical and implant periodontal therapy

<i>Technique</i>	<i>Description</i>	<i>Expertise level</i>
Conservative surgery	Access flaps – Open flap debridement Minimally resective flaps (modified Widman flap) Papilla preservation flaps Minimally Invasive flaps	Master
Resective Surgery	Gingivectomy Clinical crown lengthening Apically positioned flap Distal wedge procedures Root resection/hemisection procedures	Master
Regenerative surgery	Guided Tissue Regeneration Techniques Grafting of periodontal defects Application of biologically active regenerative materials Combination therapy Regeneration of the Furcation Reconstructive surgery of complex defects (Suprabony defects, Dehiscences, Craters)	Master
Mucogingival surgery: Periodontal plastic surgery	Free Epithelial Grafting Gingival augmentation and root coverage procedures Laterally and coronally advanced flap techniques with or without free soft tissue palatal grafts Tunnel techniques	Proficient
Surgical treatment of peri-implantitis	Open flap mechanical decontamination of implant surfaces Resective surgery and implanto-plasty Reconstructive procedures of the peri-implantitis associated bone defects	Proficient
Implant therapy	Ridge preservation after tooth extraction Implant placement in health and periodontitis-affected patients Guided Bone Regeneration Procedures with simultaneous implant placement	Competent

(Expertise level according to the Dreyfus model of skill acquisition: novice - advanced beginner – competent – proficient – master)

ADMINISTRATION

University of Pisa

Department of Surgical, Medical, Molecular Pathology and Critical Care Medicine

2017 - present	Member of the Board of the PhD in “Clinical Physiopathology”
✓	He has been member of the committee “By-laws”
✓	He is the department representative in the general IT department of the University of Pisa

Faculty of Medicine

✓	He has been a member of the committee “Building and Space Management”
✓	He has been a member of the committee “Teaching Classrooms”
✓	He has been a member of the committee of the Faculty library: “Antique Books” and “Text Books”

Central Administration

✓	He is the member of the general IT department of the University of Pisa
---	---

Examinership & Evaluation Assessment

University of Pisa

1999 - ongoing	Member of evaluating committees of the final exams of the courses in which he has been teaching
2005 – ongoing	He sat numerous time as Member of the Dissertation Evaluation Committee of degrees in Dentistry and Prosthodontics
2005 – ongoing	He sat numerous time as Member of the Italian Dental Licensing Committee
2017-2018	Member of the evaluating committee for position of research fellow (“Assegnista di Ricerca”)

HONOURS AND AWARDS

Honours

1998	Doctor in Dentistry and Prosthodontics (110/110 Cum Laude) University of Pisa, Pisa (Italy)
2004	Master in Clinical Dentistry in Periodontology (Distinction) Eastman Dental Institute, University College of London, London (UK)
2010	Specialty in Oral Surgery (70/70 Cum Laude) University of Naples - Federico II, Naples (Italy)

Awards & Prizes

International

2005	2nd Prize for graduate Research given by the European Federation of Periodontology “Periodontal wound healing following GTR therapy of dehiscence-type defects in the monkey: short-, medium- and long-term healing” Graziani F , Laurell L, Tonetti M, Gabriele M, Gottlow J, Berglundh T
2013	Earl Robinson Periodontal Regeneration Award given by the American Academy of Periodontology “Clinical performance of access flap surgery in the treatment of the intrabony defect. A systematic review and meta-analysis of randomized clinical trials” Graziani F , Gennai S, Cei S, Cairo F, Baggiani A, Miccoli G, Gabriele M, Tonetti M
2015	Jaccard Prize for Clinical Research given by the European Federation of Periodontology “Acute Phase Response following Full Mouth versus Quadrant Non-Surgical Periodontal Treatment. A Randomized Clinical Trial” Graziani F , Cei S, Orlandi M, Gennai S, Gabriele M, Filice N, Nisi M, D’Aiuto F
2017	HM Goldman Prize for Clinical Research given by the Italian Society of Periodontology and Implantology “The effect of twice daily kiwifruit consumption on periodontal and systemic conditions before and after treatment: a randomized clinical trial” Graziani F , Discepoli N, Gennai S, Karapetsa D, Nisi N, Bianchi L, Gabriele M, Rosema M, Van der Velden U

Italian

2001	Research Prize “Marcello Balestra” “Prevention and Management of nervous iatrogenic damage in Oral Surgery”
2003	Poster session prize Italian Society of Odontostomatological Surgery
2007	1st place Poster Session International College of Oral Implantologists, 1 st ICOI Italy meeting
2004 2014 2017	Poster session prize Collegium of Italian Dental Professors and Academicians

PROFESSIONAL SOCIETIES

Collegium of Italian Dental Professors and Academicians

2011 - 2014	National Coordinator of the Assistant Professors
2015 - 2018	Secretary of the Scientific Committee
2019 - 2021	Secretary General

European Federation of Periodontology (EFP)

2018-2019	President Elect
2018-2019	Chairman of the European Project Committee
2017 - 2021	EFP Alumni coordinator
2017	Coordinator of the European Gum Health Day - 2017
2016 - 2018	Vice-President and Member of the Executive Board
2015-2016	Junior Officer of the Workshop Committee

Italian Society of Periodontology and Implantology (SIdP)

2014 - 2015	Secretary General
2012 - 2013	Member of the Scientific Committee
2016 - 2017	Member of the Cultural Committee
2016 - 2018	SIdP Delegate to EFP

Italian Society of Odontostomatological Surgery

2005 - 2006	Secretary General and Treasurer
-------------	---------------------------------

South Europe, North Africa, Middle East Society of Implantology (SENAME)

2004 - 2008	President of the Junior Board
-------------	-------------------------------

International Association of Dental Research

Member of the Periodontal Research Group	
--	--

Directive and Managing Roles in Postgraduate Teaching***University of Pisa***

2009 - 2011	Director of the Master in “New Clinical and Experimental Technologies in Oral Surgery and Implantology” - University of Pisa
2013 - 2015	Director of the Perfectioning Course in “Management and Marketing of Dental Practice”

Academic Evaluation

2008 - 2009	Member of the evaluating committee for PhD assignment – PhD in Biomedical Technologies applied to Dental Sciences - Second University of Naples, Italy
2013	Member of the evaluating committee for PhD assignment - PhD in Experimental Periodontology – University of Milano Bicocca, Italy
2018	Member of the evaluating committee for two positions of Associate Professor in Periodontology – University of Aarhus, Denmark

Research Evaluation

2013	Referee for the National Research Evaluation Italian Ministry of Education, University and Research
------	--

Congress Evaluation

2015	Member of the Abstracts Evaluating Committee Europerio 8
2018	Member of the Abstracts Evaluating Committee Europerio 9

TECHNICAL AND SCIENTIFIC ROLES

Scientific Journal Roles & Reviewing Activities

2016 - present	Associate Editor - <i>Minerva Stomatologica</i>
2010 - present	Member of the Editorial Board <i>Journal of Clinical Periodontology</i>
2016 - present	Member of the Board of <i>Nutri & Preveni</i>
Ad-hoc reviewer	<ul style="list-style-type: none"> ✓ <i>Journal of Periodontology</i> ✓ <i>Journal of Dental Research</i>, ✓ <i>Clinical Oral Implants Research</i> ✓ <i>International Journal of Oral and maxillofacial Implants</i> ✓ <i>PlosOne</i> ✓ <i>Acta Odontostomatologica Scandinavica</i> ✓ <i>Titanium</i> ✓ <i>Growth Factor</i> ✓ <i>Clinical Oral Investigations</i> ✓ <i>Oral Health and Preventive Dentistry</i>

Workshop and Consensus

European Federation of Periodontology

2011	Reviewer - EFP Workshop
2013	Reviewer - EFP-Osteology Workshop
2018	
2012	Participant - EFP-AAP Workshop
2014	Participant - EFP Workshop
2016	Participant - EFP-ORCA Workshop
2017	Participant - EFP-AAP Workshop

Leadership Roles and Organization

European Federation of Periodontology

As a member of the executive committee of the EFP he has been involved in numerous activities and projects

2016	<p><i>Member of the Postgraduate Committee</i></p> <p>As a member of the Executive Committee he has sat in Postgraduate committee whose role is to assess postgraduate programmes of European universities that apply for a recognition by the EFP or for his extension. In this activity it is of importance to evaluate the characteristics of the specialty programme and to evaluate its strengths and weaknesses.</p>
------	--

2017	<p><i>Coordinator of the European Gum Health Day</i></p> <p>As a coordinator of the EGHD he organized the overall campaign of the EFP in celebration of the 12th May 2017. This included the coordination of the various periodontal scientific societies that adhered to the campaign and creation of visual and press material.</p>
2017	<p><i>Initiator of the EFP APP</i></p> <p>He has been the project leader and promoter of the EFP mobile application which has been installed and used by 8976 users in 10 months. The App allows to follow EFP-event programs as well other EFP content.</p>
2016 - present	<p><i>Coordinator of the Communication & Awareness</i></p> <p>He is the coordinator of communication & awareness of the Federation and thus is involved in numerous activities needed in the communication domain, as well as the Communication committee of the EFP.</p>
2018 - present	<p><i>Chairman of the European Project Committee</i></p> <p>He is at present Chairman of the Committee which is in charge of the projects that are designed and developed with one of the EFP partners. Furthermore, projects of individual National Societies are also taken on board and developed.</p> <p>During the time he has served as a chairman he developed and completed a project focusing on the relationship between periodontitis and diabetes. All of the scientific materials and materials intended for the public and media can be seen on the following link: https://www.efp.org/publications/projects/periodontitisanddiabetes/index.html. Moreover, in February 2019, a dedicated workshop highlighting the relationship between cardiovascular health and Periodontitis will be held in Madrid.</p> <p>As per the scientific societies' projects, he has initiated the project of elaborating a screening index of Periodontitis in the light of the new classification.</p>

GRANTS

Prof. Graziani as Principal Investigators obtained in the last 7 years research funds, both private and institutional, to support his research activities and his team for a total **1,204,294.26 €**.

These personal research funding allows/ed the creation and the financial support of 1 Assistant Professor, 1 PhD student and 16 research fellows with various time commitments in the last 7 years.

He has been the principal investigator of all the Grants obtained.

Institutional Funding

2012 - 2015	<p>“Periodontal disease as emergent systemic disease: development of a new clinical unit for patients’ global health care”.</p> <p>Grantee: Italian Ministry of Health & Tuscan Region (GR-2009-1592229). Funds: 819,194.00 € (562,503.99 € to his specific unit although he had the responsibility of the entire grant) Role: Principal Investigator This project, comprised of 4 research units, allowed the establishment of a clinical research centre focusing on the relationships between oral and systemic health. 13 research fellows were enrolled and financially supported.</p>
2015 - 2016	<p>“Acute systemic inflammation and endothelial dysfunction after intensive or conventional treatment in diabetic and obese subjects.”</p> <p>Grantee: University of Pisa (PRA_2016_26) (Italy) Funds: 45,836.58 € Role: Principal Investigator This project allowed the development of two trials. 2 research fellows were enrolled and financially supported (one completely and one partly).</p>
2015 - 2016	<p>“PERIOMED project”</p> <p>Grantee: Clinical Research and Innovation - University of Pisa (Italy) Funds: 7,500.00 € Role: Principal Investigator Financial support from the local University to further strengthen the research unit. 1 research fellow was partly supported.</p>
2016 - 2018	<p>"Acute Phase Response Following Full Mouth Versus Quadrant Non-Surgical Periodontal Treatment In Subjects Presenting Systemic Chronic Co-Morbidities: A Randomized Clinical Trial"</p> <p>Grantee: Italian Society of Periodontology and Implantology (Italy)</p>

	<p>Funds: 30,000.00 €</p> <p>Role: Principal Investigator</p> <p>This funding supported the development of three trials focusing on the effects of periodontal treatment on systemic bio-markers</p> <p>2 research fellows were partly supported.</p>
2013 - 2018	<p>Grantee: University of Pisa (Italy)</p> <p>2010 - 2017</p> <p>Conventional Research Funds: 17,341.00 €</p>
2019 -	<p>“Meribel project – Recession, dentine hypersensitivity, tooth wear and associated risk factors: An observational, cross-sectional multi-centre epidemiological study”</p> <p>Grantee: University of Bristol (UK)</p> <p>Funds: 57,000 € (allocated to University of Pisa)</p> <p>Role: Local Centre Coordinator</p>

Private Funding

2012 - 2018	<p>“Systemic effects of periodontal regenerative surgery”</p> <p>Grantee: Institut Straumann AG, Switzerland</p> <p>Funds: 60,000.00 €</p> <p>Role: Principal Investigator</p> <p>This project allowed the development of two trials focusing on the effect of amelogenins and regenerative therapy at local and systemic level.</p>
2018 - 2020	<p>“Oral Hygiene, Periodontology and Systemic Health”</p> <p>Grantee: Procter & Gamble, Switzerland</p> <p>Funds: 60,000.00 €</p> <p>This grant covered and allowed a 3-year PhD Position focusing on the effect of improved oral hygiene condition on the overall well-being.</p>
2019 - 2021	<p>“Acute Phase Response Following Full Mouth Versus Quadrant Non-Surgical Periodontal Treatment In Subjects Presenting Systemic Chronic Co-Morbidities such as Diabetes and Obesity: a series of Randomized Clinical Trials.”</p> <p>Grantee: Sunstar Suisse SA, Switzerland</p> <p>Funds: 107,422.68 €</p> <p>Role: Principal Investigator</p> <p>This grant covered and allowed the call for a 3-year post of Part- Time Assistant Professor in Periodontology focusing on trials highlighting the effect of periodontal treatment on subjects affected by diabetes and obesity.</p>

THESIS DIRECTOR

Since 2005 Has been tutoring numerous undergraduate thesis with topics related to Oral Surgery and Periodontology.

PostGraduate Thesis Tutoring

PhD degree 2017	Tutor PhD Thesis in Clinical Physiopathology Dr. Dimitra Karapetsa “Rheumatoid arthritis and control of the periodontal infection: epidemiological evaluation and randomized clinical trial” University of Pisa, Pisa (Italy)
PhD degree 2017	Co-Tutor PhD Thesis in Clinical Physiopathology Dr. Stefano Gennai “Acute Phase Response following Periodontal Treatment. A series of Randomized Clinical Trials” University of Pisa, Pisa (Italy)
PhD Ongoing	Tutor PhD Thesis in Clinical Physiopathology Mrs. Marina Peric “Oral hygiene, periodontology and systemic health” University of Pisa, Pisa (Italy)
PhD Ongoing	Tutor PhD Thesis in Clinical Physiopathology Mrs. Urska Marhl “Acute systemic inflammation in obese and hypertensive patients following full-mouth versus quadrant non-surgical treatment of Periodontitis” University of Pisa, Pisa (Italy)

Thesis Revising

PhD degree 2010	PhD Thesis in Periodontology Dr. Antonio Linares “Immediate Implant Placement and Loading. Study on Animals” University of Santiago de Compostela, Santiago (Spain)
Master of Philosophy 2012	Master of Philosophy Thesis in Periodontology Dr. Nabil Khzam “Dimensional changes in the supporting tissues following immediate placement and restoration of dental implants in the aesthetic zone: a retrospective study” Griffith University, Gold Cost (Australia)

PhD degree 2017	PhD Thesis in Periodontology Dr. Marcella Di Tullio “Periodontal regeneration with platelet-rich fibrin (PRF) and autogenous bone graft (ABG) vs enamel matrix derivative (EMD) and abg in the treatment of intrabony periodontal defects. A longitudinal randomized control clinical study (a non-inferiority trial)” University of Chieti, Chieti (Italy)
PhD degree 2018	PhD Thesis in Bio-Medical Sciences Dr. Carlo Barausse “Short Implants on natural bone versus long implants on reconstructed bone: a clinical randomized trial with 5-year follow-up” University of Bologna, Bologna (Italy)

PUBLICATIONS LIST

BIBLIOMETRY

✓ He has published/had accepted 182 scientific contributions, subdivided 8 book chapters, 76 publications in index medicus, 25 not indexed publications in extenso, 75 abstracts, 4 theses.
✓ Of the 76 publications 50 are original articles, 18 are reviews and 8 are consensus papers Of the reviews 12 are systematic reviews and 6 narrative reviews He has been first /last author in 42 out of 76
✓ Impact Factor (up to 2017): 140,935
✓ Hirsch Index (Web of Science: January 2019, 66 publications analyzed): 20
✓ Total Citations without self-citations (Web of Science: January 2019): 1541
✓ Hirsch Index (Google Scholar: January 2019): 29
✓ Total Citations (Google Scholar: January 2019): 2743

2013	<p>Gabriele M & Graziani F Importance of Periodontology in Implant Therapy In: "Basic Implantology" (In Italian) Griffin publisher</p>

Theses

1998	<p>Thesis: Experimental Evaluation of the Therapeutic Efficacy of Hydrogen Peroxide on Tissues and Microvascularization of Radicular Cysts of the Jaw Bones (<i>"Valutazione Sperimentale dell'Efficacia Terapeutica del Perossido d'Idrogeno sui Tessuti e sulla Microvascolarizzazione delle Cisti Radicolari delle Ossa Mascellari"</i>) University of Pisa, Pisa (Italy)</p>
------	---

2002	Thesis: Research Methods on Post-operative Tissue Modifications of Surgery of the Jaw Bones (<i>“Metodiche di Ricerca nelle Modificazioni Tissutali Postoperatorie dell Chirurgia delle Ossa Mascellari”</i>) Second University of Naples, Naples (Italy)
2004	Thesis: The Dynamics of Periodontal Wound Healing Following GTR Therapy. A Longitudinal Study in Monkeys in Dehiscence Type Defects Eastman Dental Institute, University College of London, London (UK)
2010	Thesis: Acute Phase Reaction after Periodontal Surgery: Experimental Clinical Trial (<i>“Reazione di Fase Acuta dopo Chirurgia Oro-Parodontale: Clinical Trial Randomizzato”</i>) University of Naples - Federico II, Naples (Italy)

CONGRESS SPEECHES

Prof. Graziani has given **177** speeches in congresses in his career, **46** speeches in international conferences.

International

46	« Conservative Periodontal Surgery” 19th International Congress of the Italian Society of Periodontology, Rimini 21-23 rd March 2019
45	« Regeneration of unconventional defects” Hellenic Society of Periodontology – 13th Symposium Athens, 15-16th March 2019
44	« New approaches in surgical periodontal therapy » Hellenic Society of Periodontology – 13th Symposium Athens, 15-16th March 2019
43	“Non-surgical periodontal therapy revisited: what are the limits? “ Hellenic Society of Periodontology – 13th Symposium Athens, 15-16th March 2019
42	“Reduction of the risk of peri-implant diseases by improving soft tissues at time of implant placement.” EFP Periomaster Clinic, Hong Kong, 1-2 nd March 2019
41	« Quand Recourir à la Chirurgie Parodontale? » Association Dentaire Française, Paris 29 th November 2018
40	“Periodontitis and its impact on general health” Belgian Society of Periodontology, Bruxelles 17 th November 2018
39	“Regeneration of non-conventional defects” Osteology, Turin 28 th September
38	“Periodontal Surgery: does it still have a role in contemporary periodontology?” South Europe, North Africa, Middle East Society of Implantology , Naples 20 th September 2018
37	“Effects of perio treatment on bio-markers of cardiovascular health” 9h Conference of the European Federation of Periodontology, Europerio, Amsterdam, 23 rd June 2018
36	“Periodontitis and Adverse Pregnancy Outcomes: a real connection?” 9 th Conference of the European Federation of Periodontology, Europerio, Amsterdam, 21 st June 2018
35	“Masterclass Advanced Course on Contemporary Periodontal Surgery” Croatian Society of Periodontology, 10-12 th May 2018

34	“Conservative Periodontal treatment” Ukrainian Society of Periodontology, Kiev, 29 th March 2018
33	“Periodontal Surgery” Russian Society of Periodontology, Moscow, 12th February 2018
32	“Systemic effects of Periodontal Treatment” Russian Society of Periodontology, San Pietersburg, 25 th October 2017
31	“Management of Periodontal Practice: is there any space for science?” Dutch Hygienist Association, Amsterdam, 30 th September 2017
30	“Qué sabemos y que no sabemos de la asociación entre periodontitis y diabetes? “ Summer School Complutense University of Madrid, Madrid, 17 th July 2017
29	“Bone regeneration in peri-implantitis” Spanish Society of Periodontology, Malaga, 27 th May 2017
28	“is periodontal care and prevention of oral pathologies profitable?” Spanish Society of Periodontology, Malaga, 26 th May 2017
27	“Systemic and Psyc-Social effects of Periodontal Treatment” Spanish Society of Periodontology, Malaga, 26 th May 2017
26	“Indications and Techniques in periodontal conservative surgery” Croatian Society of Periodontology, Sibenik, 5 th May 2017
25	“The systemic effect of Periodontal treatment” Danish Dental Association, Copenhagen, 28th April 2017
24	“Regeneration of horizontal bone loss – is it possible?” German Society of Periodontology, Würzburg, 16-17th September 2016
23	“Systemic effect of Periodontal treatment” Federation Dental International (FDI) annual World Dental Congress, Poznan (Polonia), 8 th Septmber 2016
22	“Control of periodontal inflammation before orthodontics – Re-evaluation of patients espectations” 11 Th Workshop Der Association for Periodontal Research Wissenschaftsstiftung (ARPA)– Bonn, 10 th June 2016
21	“Sesiòn Innova: el punto vista del paciente. El paciente periodontal y sus necesidades: dientes, cuerpo y dinero” Reuniòn Annual Sociedad Espanola de Periodocia y Osteointergerciòn – Valencia, 14 th May 2016
20	“El tratamiento periodontal y la percepciòn psicològica de la vida: te puedes sentir

	<p>mejor tras el tratamiento?” Reuniòn Annual Sociedad Espanola de Periodocia y Osteointergerciòn – Valencia, 12th May 2016</p>
19	<p>“Management of the Periodontal Private Practice: is there any space for science?” Dutch Society of Periodontology. Lustrumcongress – Hoorn, 16th April 2016</p>
18	<p>“Rationale and Modern Application of Conservative Periodontal Surgery” Slovenian Society of Periodontology – Ljubljana, 8-9th April 2016</p>
17	<p>“Las enfermedades periodontales ante el reto de la salud publica y la comunicion” Universidad Complutense de Madrid, Facultad de Odontologia – Madrid 13th July 2015</p>
16	<p>“How to assess patients related outcomes” 8th Conference of the European Federation of Periodontology, Europerio– Londra, 6th June 2015</p>
15	<p>“Periodontal Conservative Surgery” 21° International Dental Congress, Turkish Dental Association – Istanbul, 28-30th May 2015</p>
14	<p>“A new approach for the evaluation of periodontal treatment based on the patient’s perception” Seminar of the Hellenic Society of Periodontology – Thessaloniki, 30-31st January 2015</p>
13	<p>“Conservative periodontal surgery: a critical contemporary evaluation” Seminar of the Hellenic Society of Periodontology – Thessaloniki, 30-31st January 2015</p>
12	<p>“Periodontal treatment and its impact on patient’s health outcomes, perceptions and needs” 44th Congress of the Turkish Society of Periodontology – Istanbul, 9-10th May 2014</p>
11	<p>“Treatment of periimplantitis: a critical review” 47a Reuniòn Anual de la Sociedad Española de Periodoncia y Osteointegraciòn – Granada, 23-25th May 2013</p>
10	<p>“Treatment of periimplantitis” 3° Reuniòn Anual de la Sociedad Española de Periodoncia y Osteointegraciòn de Higiene Bucodental – Granada, 23-25th May 2013</p>
9	<p>“Epidemiology and aetiology of dentine hypersensitivity and non-carious cervical lesions” Hellenic Society of Periodontology – Athens, 7-8th December 2012</p>
8	<p>“Control of dentine hypersensitivity – from desensitizing agents to root coverage” Hellenic Society of Periodontology – Athens, 7-8th December 2012</p>

7	“Conservative periodontal surgery: a cost-effective surgical approach” Suddeutsche Implantologietage – Konstanz, Germany, 24 th September 2011
6	“Teeth & Implants... dilemmas, solutions and suggestions for a rational approach in modern dentistry” 6 th SENAME Implantology Association – International Congress of Oral Implantologists - Marrakech, 30 th October 2009
5	“Practical considerations of the biological knowledge in regenerative surgery” 1 ^o International Congress of Oral Implantologists Consensus Conference - Pisa, 5 th October 2007
4	“Immediate Implant loading: rationale and scientific evidence” SENAME Implantology Association - Napoli, 25 th May 2006
3	“Current views on the biological rationale of guided bone regeneration” SENAME Implantology Association – Sorrento, 16 th June 2005
2	“The dynamics of periodontal wound healing in dehiscence type defects following GTR therapy. A longitudinal study in monkeys in dehiscence type defects” Autumn meeting British Society of Periodontology, Royal Society - London, 23 rd September 2004
1	“Understanding Tissue Engineering: Platelet Rich Plasma from the Biological Rationale to the Clinic” 1 st International Congress SENAME Implantology Association – Napoli, 26 th September 2003

Italian

131	“Decision making: la prognosi parodontale” Accademia Italiana di Endodonzia, 22 nd Feb 2019
130	“Periodontal Treatment in Patients affected by Diabetes” Congress of the Istituto Stomatologico Toscano, Viareggio 25 th January 2019
129	“Treatment of Peri-Implantitis: What’s new?” 8 th Congress of Geass Implant, Venice 25 th January 2019
128	“What happens to the patient’s health if I treat periodontitis” 1 st Italian Congress of Dental Councils, Turin 30 th December 2018
127	“Periodontitis and Peri-Implantitis 2.0” Italian Association of Dental Hygienists, Bologna 16 th November 2018
