

Curriculum Vitae - Anna Di Cosmo

Full Professor of Zoology, Department of Biology. University of Naples “Federico II”, Complesso Monte S. Angelo, Via Cinthia, 80126, Napoli - Italy

e-mail:

phone number:

Education and training

Bachelor in Biological Sciences, University of Naples “Federico II”

Specialization in Microbiology, at the Faculty of Medicine, Università di Napoli Federico II

Training in Immunohistochemistry London at the Hammersmith Hospital.

Pearce’s Group

Academic Position

Full Professor of Zoology, University of Naples “Federico II”

Professional experience

Visiting researcher: Centre for Molecular Biology and Neuroscience (CMBN) &Department of Anatomy, Institute of Basic Medical Sciences (IMB) University of Oslo Lab Group Jon Storm-Mathisen (1996).

Visiting researcher: Centro Oceanográfico de Vigo (IEO) Vigo, Spain , Lab Group Dott. Jose Iglesias Estevez (2000-2002)

Visiting professor: University Lancashire, Department of Biology, Lab Group Prof. William Winlow (2004)

Visiting professor Veterinary School University Liverpool, Lab Group Prof. Richard Morris (2005)

Visiting professor University Kuopio Philand, Lab Group Dott. Japo Jussila (2007)

Visiting professor Dept. Cell Biology & Anatomy Cumming School of Medicine University of Calgary Lab Group Prof. Naweed Syed (2009)

Visiting professor University of Florida – department of neuroscience , College medicine – The Whitney Laboratory for marine Bioscience , St.Augustine, Fl Group Prof. Leonid Moroz (2016)

Educational activities

Teaching Università di Napoli, FedericoII

Zoology, Marine Biodiversity, Ethology Biomonitoring, Biosensors, Parasitology, Protozoology, Microbiology, Aquaculture.

Course for graduate and PhD students

Language: Italian and English

Mentoring

Mentor to Postdoctoral fellows:

2001-2004 Di Cristo Carlo- Current position: Assistant Professor, University of Sannio Benevento
2009-2013 Troncone Luca
2014- 2016 Bertapelle Carla

Tutor of PhD Thesis

2020-today HEETHAKA KRISHANTHA SAMEERA DE ZOYSA (Zoology)
2018-today Alsayed Alsayd Mohamed Mostafa (Zoology)
1997-2000 Di Cristo Carlo (Marine Zoology)
2005-2008 De Lisa Emilia (Marine Zoology)
2011-2015 Bertapelle Carla) (Behavior of marine organisms- Cephalopods)
2012-2016 Campoli ludovica (Meiofaunal communities)
2018 -2021 Al Sayed Al Soudy (Behavior of marine organisms- Cephalopods)

Thesis/Advisor to undergraduate students:

> 100 undergraduates students (the list can be supplied on a request)

Academic Committees

University of Sannio, Benevento, Italy

2001-2005 Faculty member

University of Napoli Federico II, Napoli, Italy

2006-2016 Faculty member

2010-present Member of University Ethical Committee Expertise Cephalopods

2016-2018 Scientific Director of Zoological Museum of The Università degli Studi di Napoli Federico II

2016- present Coordinator of Master's Degree in Course in Biology and Ecology of the Marine Environment and Sustainable Use of Marine Resources

2017 – present Member of Doctoral Committee in Biology – Università degli Studi di Napoli Federico II

Editorial activities

- Associate Editor for Animals - (ISSN 2076-2615) MDPI
- Associate Editor for Frontiers in physiology – Aquatic Physiology Marine Science - present
- Editor of “Neuroecology and Neuroethology in Molluscs The interface between Behaviour and Environment”
Marine Biology, Published by Nova Science Publishers, Inc. New York (2014)
- Review Editor of Frontiers in Experimental Endocrinology - present
- Managing Editor of a special issue of the journal “Frontiers in Bioscience” entitled “Brain plasticity in non-vertebrate animals”- (2006-2010)

Ad hoc referee of several international peer-reviewed journals:

The Journal of Comparative Neurology, Peptides, Journal of Zoology, Aquaculture, Molecular Reproduction and Development, Journal of Invertebrate Biology, European Journal of Neurochemistry, The Journal of Experimental Biology, Invertebrate Reproduction and Development, Scientia Marina., Aquaculture

Grant Reviewer:

2013 FIRB- Italian Education Ministry

2015 ACHN OCTOCON DocSci.; ACHN, BUILDING THE EUROPEAN RESEARCH AREA (ERA) AND FRANCE'S INTERNATIONAL ATTRACTIVENESS

2015 CIG ZCA161BF8E –TIS innovation park- Italian Science Foundation

Research support

2018 - Scientific Coordinator of the project “Taxonomic identification of specimens of precious coral, pearls and biogenic gems with a molecular approach” for the Department of Biology, University of Naples Federico II with the l’Istituto Gemmologico Italiano (IGICOM) and Bahrain Institute for Pearls and Gemstones (DANAT).

- 2009 - Scientific Coordinator “The mechanism whereby Ca^{2+} signalling promotes axonal regrowth” – Compagnia di S. Paolo–Neuroscience program. Current
- 2009 - Local Coordinator of research program - First-year national program of fisheries and aquaculture 2007-2009 (MIPAF)-Monitoring of marine ecosystems using bivalve molluscs as indicators of water pollution aimed at the safety of production.
- 2008 - Co-Scientific Coordinator A. Di Cosmo, Moroz L.L. Whitheney University, Florida "Neuronal Transcriptome from *Octopus vulgaris*." Research Project Funded by the Province of Benevento and the University of Naples Federico II for a period of four years (€ 25,000.00)
- 2007 - International Coordinator together with Prof. Lisa Hall, University of Cambridge, of a project entitled “Development of new remotely controlled biosensors for water monitoring” funded by Provincia of Benevento for the period 2007-2008.
- 2005 - Scientific Coordinator of a research program supported by the Regione Campania (LR 5, ex 41/94), entitled: "Fertilisation in *Octopus vulgaris*: oocyte maturation and chemical communication between sperms and eggs.
- 2003 - International Coordinator of a Basic Research Program (FIRB), entitled “The cerebellum and movement control in *Octopus vulgaris*” funded by Ministry of the University and Research for the period 2003-2007.
- 2002 - Scientific Coordinator of a research program supported by the Regione Campania (LR 41/94), entitled: “Development of an integrated aquaculture system for marine and freshwater species.
- 2002 - National Coordinator of a Research Program of National Relevant Interest (PRIN 2002-2004, Ministry of the University and Research), entitled: “Neurosteroids in the nervous system of cephalopods: occurrence, oxidative and nitrosative modifications and functions” (150.000,00 €).

- 2000 - Local Coordinator of a Research Program of National Relevant Interest (PRIN 2000-2002, Ministry of the University and Research), entitled: "Progesterone receptor: a hint for parallel evolution?" (100.000,00 €)

Scientific societies affiliations memberships:

- Italian Society of Zoology (UZI) and elected member to represent the Association in the National project SPERA "Sperimentare per Curare" dedicated to animal welfare in experimentation
- ESMB European Society of Marine Biotechnology
- ESCE European Society of Comparative Endocrinology
- CIAC Cephalopod International Advisory Council

National and International Meeting (2012-15)- Invited speaker

- DI COSMO, A Lecture (2015) From Neuropeptides to Steroids: molecules and pathways involved in *Octopus vulgaris* reproduction. Workshop 4; Physiology of reproduction, 8-9 Novembre Hakodate-Hokkaido.Giappone

Major Achievements during the last 5 years:

My own work and interests span topics on the biological diversity, its evolution, and its preservation through research at all levels, from genes to ecosystems.

- 1) First demonstration of **adult neurogenesis** in cephalopod *Octopus vulgaris*
- 2) First protocol for cell culture of cephalopod *Octopus vulgaris*.
- 3) First demonstration of **the presence and functional role of sex steroids and their receptors** in the reproductive system of cephalopod *Octopus vulgaris*.
- 4) First demonstration of **OCT-GnRH** in the nervous system of *O. vulgaris*
- 5) Established the presence for the first time of **neurosteroids** in the nervous system of *O.vulgaris*.
- 6) Established the functional role of a **sex steroids and their receptors** in the nervous system of *O.vulgaris*.
- 7) First demonstration of the role of 17 **β -Estradiol** in the regulation of memory and learning process in the nervous system of *O. vulgaris*

- 8) First demonstration of the combined regulation by 17 **β-Estradiol** and **oct-GnRH** in the *O.vulgaris* reproduction.
- 9) First demonstration of the non-genomic mechanism of 17 **β-Estradiol and his receptors and their involvement in the motor coordination** in *O.vulgaris*.
- 10) Evidence for the presence **of a new site for memory storage, the otic lobes**, in the *O.vulgaris* nervous system.
- 11) **The first demonstration of chemotaxis role in indirect internal fertilization in *O.vulgaris*.**
- 12) **The first octopus sperm attractant peptide has been characterized Octo-SAP's properties showing that chemotaxis occurred in a concentration-dependent manner, the sperm moved up the concentration gradient towards areas of high Octo-SAP concentration.**
- 13) **The first movie of tiny Octopus sperm movements under the action of Octo-SAP.**
- 14) First demonstration of the role of olfactory organ in *O.vulgaris*.
- 15) First demonstration of the control of olfactory organ by olfactory lobe in *O.vulgaris*.
- 16) First survey of the meiofaunal communities of Nisida and environmental status of the Flegrean area.
- 17) The first contribute to cephalopod welfare using isofluorane as anesthetic

Broad impact from Prof. Di Cosmo research
