

ResearchGATE

**ResearchGATE é un network professionale per studiosi e ricercatori.
É totalmente gratuito e contiene strumenti utili d'utilizzo.**

Connect and Communicate

Interagisci con I colleghi ricercatori e costruisci il tuo network scientifico

Share and Collaborate

Pubblica aggiornamenti, discuti metodi scientifici e scrivi in collaborazione con i colleghi

Discover

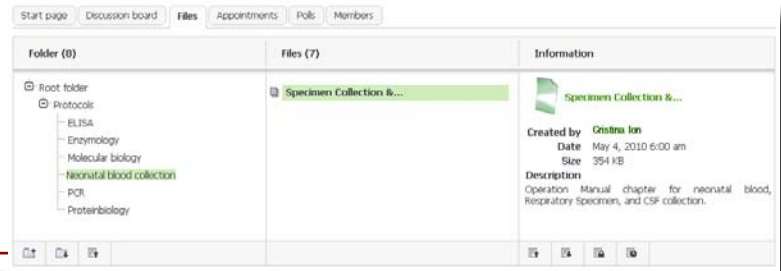

Scarica articoli accademici, trova le conferenze e le offerte di lavoro piú adatte a te

Gruppi

Il luogo ideale per uno scambio e una collaborazione scientifica

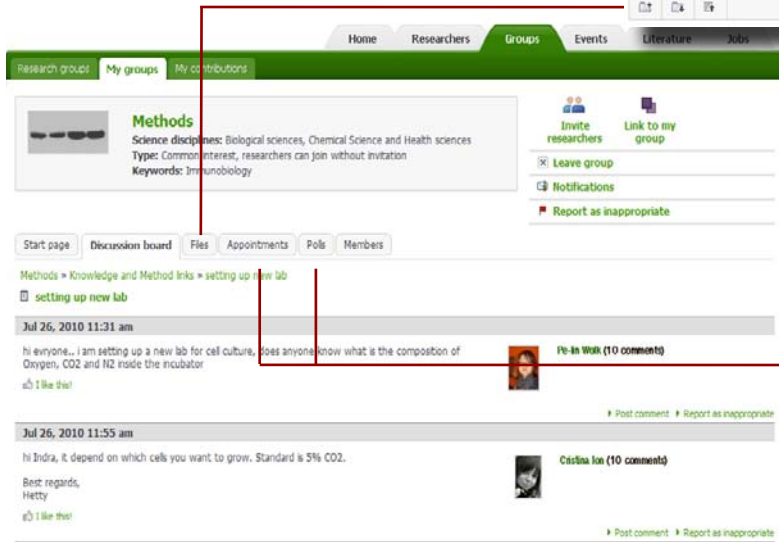

Tabella di discussione

Il posto dove discutere con ricercatori dello stesso ambito e fare domande o richieste scientifiche

Documenti

Collabora alla stesura di documenti, caricali e scaricali, scegli il livello di visibilità nel sito

Appontamenti e sondaggi

Organizza gli appuntamenti dei gruppi
Crea sondaggi

Profilo personale

Ogni profilo personale é caratterizzato da:

Riassunto del proprio CV

Dettagli di contatto e esperienze personali

Indice delle pubblicazioni

Breve presentazione di ogni pubblicazione

Microblog e Blog

Per condividere aggiornamenti, risultati

e risorse

Biblioteca

Per salvare degli articoli utili

The screenshot shows a ResearchGate profile for Tjad Madisch. The profile includes a header with navigation tabs (Home, Researchers, Groups, Events, Literature, Jobs) and sub-tabs (Overview, My contacts, My followers, My bookmarks, Colleague finder, Track invitations, Researcher's Profile). The main content area features a profile picture, name, and affiliation (M.D., Ph.D., Harvard University, Massachusetts General Hospital, Radiology, 02138 Boston, United States of America). Below this are tabs for 'About me', 'Publications', 'Library', 'Author Statistics', 'Blog', 'Contacts', 'Groups', and 'Network graph'. The 'Personal Information' section lists research interests like 'Research partners' and 'Adenoviral Vector Design'. The 'Research Skills' section is divided into Technical Skills (Cloning, DNA Amplification, etc.), IT Skills (Bioinformatics, etc.), Statistical Skills (SPSS, R), and Other Skills (Microsoft Office, Adobe Photoshop). On the right side, there are sections for 'Follow Tjad Madisch' (487 following, 509 followers), 'Send message', 'Contact connection', 'Confirmed contacts (363)', 'Groups' (including 'BMEP - IRLS' and 'Adenoviral Research'), and 'More groups'.

Theoretical Approaches for the Genome and the proteins (TAGp 2010)

Oct 20, 2010 - Oct 22, 2010, University of Savoie, France

This event aims at bringing in contact people from different domains (physics, mathematics, biology, computer science) concerned with various theoretical and experimental aspects of the genome and of the structure of proteins. There are two precedents TAG06 and TAG08. TAGp 2010 expands towards new topics: #MACROMOLECULAR ASSEMBLY (proteins and...

The screenshot displays the ResearchGate website interface. At the top, there is a navigation bar with tabs for Home, Researchers, Groups, Events, Literature, and Jobs. A green 'Fulltext' button is visible in the top right corner. Below the navigation bar, the 'Publication details' section is active, showing the title 'Embryonic Stem Cell MicroRNAs: Defining Factors in Induced Pluripotent (iPS) and Cancer (CSC) Stem Cells?' by Preethi H Gunaratne. The abstract text is visible, along with the journal information 'Current stem cell research & therapy, 01/10/2009' and the ISSN '1574-888X'. A '162 requests' badge is present. A 'Make this article Open Access in ResearchGATE!' section indicates that some researchers have requested the full-text version. Social media sharing icons and a 'Cite' button are also visible. A 'Self archiving restrictions' dropdown menu is shown below. The 'Comments on this publication' section features a comment from Prof. Alexandra Winklerova dated Feb 20, 2010. At the bottom, a 'Journal finder' form is displayed, asking the user to paste their abstract to find appropriate journals for publishing. The form includes a text input area and a 'Search' button.
