All the information on the call for applications and the results are reported on this page:

Please, always refer to this page which will be constantly updated.
1st CYCLE
three-year Bachelor’s Degrees

2nd CYCLE
two-year Master’s Degrees
and single CYCLE Master’s Degrees

3rd CYCLE
PhD Programmes

INTERNATIONAL MOBILITY_CALL FOR APPLICATIONS
http://www.unipa.it/mobilita/

How do I choose the hosting university?
How do I choose the hosting university?

CHECK THE EDUCATIONAL OFFER
Before submitting the application, the *educational offer* must be checked on the website of the foreign university to identify the activities to be carried out.

CHECK THE APPLICATION DEADLINES
If selected, the candidates will have to carry out a procedure called "*application form*" to provide their data. Methods and times of the procedure must be checked on the website of the foreign university.

CHECK THE LANGUAGE REQUIREMENTS
Some universities require proof of the candidate's language proficiency. This requirement must be verified on the website of the foreign university (eg language certification or simple attestation).
INTERNATIONAL MOBILITY CALL FOR APPLICATIONS
http://www.unipa.it/mobilita/

How do I apply?

Fill in the Application on the Student Portal (Portale Studenti)
You can apply if you are enrolled in:

- Bachelor’s Degree Courses
- Master's Degree Courses
- Single cycle Master’s Degree Courses
- PhD Programmes and Specialisation Schools

It is necessary to have the status "carriera attiva" on the Student Portal
How is the online application structured?

APPLICATION

CHOICE OF THE CYCLE OF STUDIES

Cycles

Select the cycle for which you intend to compete:

- Cycle 1 - Students enrolled in three-year Bachelor’s Degree courses
- Cycle 2 - Group 1 - Students enrolled in single cycle Master’s Degree courses
- Cycle 2 - Group 2 - Students enrolled in two-year Master’s Degree courses
- Cycle 2 - Group 3 - Graduating students of three-year Bachelor’s Degree courses
- Cycle 3 - Students enrolled in PdD programmes and specialisation schools

ATTENTION NOTICE:
Within the online application, the total number of months is indicated in the expected duration (“Durata”) field. Check the real duration allowed in Annex A of the call for applications.
APPLICATION

PREVIOUS ERASMUS MOBILITY

Any ERASMUS mobility carried out within the same study cycle must be declared in this section.
In this section the dates of the mobility must be entered.

**ATTENTION NOTICE:**

It is NOT possible to declare periods shorter / longer than those reported in the call for applications (semester / year).

It is NOT possible to change the choice of semester made.

It is NOT possible to carry out mobility lasting less than 2 continuous months.

It is possible to change the dates but remaining within the indicated period.
APPLICATION

BANK ACCOUNT DETAILS AND RENEWAL OF UNIVERSITY ENROLLMENT

It will be necessary to be regularly enrolled in the A.Y. 2022/23 to be able to carry out the ERASMUS mobility.

Please note that it is NOT possible to graduate in the extraordinary sessions 21/22.
How am I evaluated?

Annex B + Interview (Extra EU, DT, PIS)
Criteria for evaluating the academic career of candidates for the Erasmus + program

a) Students enrolled in three-year Bachelor’s Degree courses and in single cycle Master’s Degree courses

The points to be awarded are calculated on the basis of the average (Media / M) of the grades and on the basis of the number of exams taken, expressed in University credits (Crediti Formativi Universitari / CFU), calculated with the weighted average system in which the weights are precisely the CFUs. The latter are included in the calculation through a regularity coefficient \( r \), in order to obtain a corrected average (Media Corretta / MC). In this way, the regular student who has a higher number of CFUs is favored, with the same average. The formula used is: \( MC = M \times r \). The value of the MC will then be converted into fifths. The development of the calculation is carried out:

i) calculation of \( (M) \) = average of the grades

ii) calculation of \( r \) = regularity coefficient

In order to reward regular students compared to those who are less, a coefficient \( r \) is inserted in the formula whose values depend on accumulated CFUs: from 15 to 30 CFUs \( r = 0.85 \) from 31 to 60 CFUs \( r = 0.90 \) from 61 to 90 CFUs \( r = 0.95 \) from 91 onwards \( r = 1 \)

iii) calculation of MC and conversion into fifths

When \( r = 1 \), \( MC = M \), while in all other cases MC is less than M. To be able to express the values on a scale of 0-5, the values of MC must be proportionally rescaled, expressed in thirty, in a score \( P (5) \) ranging from 0 to 5, according to the following formula: \( P (5) = MC : 3 - 5 \)

NB: although all the subjects taken with a non-numerical assessment (eligible, good, passed, etc.) do not contribute to the calculation of the average, the relative CFUs contribute to the calculation of the regularity coefficient.
b) Students enrolled in two-year Master’s Degree courses and in I Level Masters
For these students, the grade reported on the three-year Bachelor’s Degree exam is assumed as the baseline. In fact, applying a proportional conversion criterion from the graduation grade range 66/110 to the fifth grade 0/5, would not allow good discrimination in terms of graduation grade since graduation grades are concentrated in the range from 90 to 110. Therefore, the following table is set as a reference for the attribution of the score in fifths: graduation grade score from 108 to 110: 5 from 105 to 107: 4 from 100 to 104: 3 90 to 99: 2 less than 90: 1

c) Students enrolled in PdD programmes, specialisation schools and II Level Masters
Similarly to the previous point, for these students the grade reported on the graduation exam of the specialist, Master’s or old system degree is assumed as baseline, according to the following table: graduation grade score from 108 to 110: 5 from 105 to 107: 4 100 to 104: 3 90 to 99: 2 less than 90: 1

ATTENTION NOTICE:

Once you have reached step 5 of 5, your application maintains the status "to be completed on the web" ("da completare sul web") until **12.00 on 15th April 2022**.

By this date it is possible to delete it in order to make a new application.

After this deadline the status will be set as "completed on the web" ("completata sul web").
Application deadline on Online Services (Servizi on line)

15th April 2022 - 12.00 p.m.

(*) Only for Traineeship Mobility
The application must be integrated by 6/5/2022 by sending the Acceptance Letter pdf duly completed and signed by the internship host institution to:
mail-protocollo@unipa.it
PROCEDURES FOR ASSIGNMENT OF PLACES NOT ASSIGNED DURING THE PROVISIONAL RANKING PHASE of 27th April 2022

It is possible to TAKE OVER after withdrawal requests received by 6th May 2022

(THESE SCROLLS WILL BE REGISTERED IN THE FINAL RANKING LIST of 10th May 2022)
SUMMARY
1. I read the call for applications (BANDO)
2. I choose the destination from Annex A
3. I check the educational offer and the language requirements of the receiving university and, if necessary, I ask the coordinator of the agreement for advice

by 15\textsuperscript{th} April 2022

I FILL IN THE ONLINE APPLICATION
On 27th April 2022
I am a WINNER

What is the next step?
**Option A**

I begin to think about the subjects/courses I would like to include in the Learning Agreement

*From 16th to 31st May 2022*

I fill out the Learning Agreement online

---

**Option B**

I submit a withdrawal request by 6th May 2022

No penalty

---

6th May 2022

**FINAL RANKING**
