

# TracciarisorseOpen short guide

Edited by the Monitoring, analysis and development of library services and digital reference office

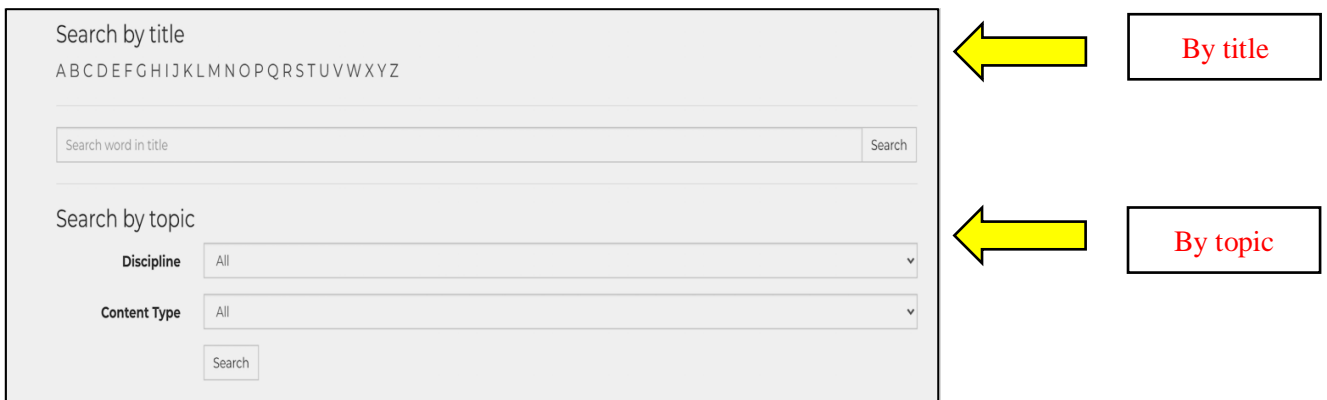

TracciarisorseOpen is a subject directory, equipped with an internal search engine, aimed at meeting the information and cognitive needs of academic users.

**Build a customized search path and quickly find the open access resource you're interested in**

You have two search possibilities:

- by title
- by topic

## Search box

The image shows a screenshot of the search interface with two search methods. The top section is titled "Search by title" and includes an alphabetical index (A-Z) and a search input field with a "Search" button. The bottom section is titled "Search by topic" and includes two dropdown menus for "Discipline" and "Content Type", both currently set to "All", and a "Search" button. Two yellow arrows point from external boxes to the search input field and the "Search by topic" section. The external boxes are labeled "By title" and "By topic" respectively.

## Search by title:

- use the alphabetical scrolling list
- a word in the title

### MacOdrum Library

Site of the University Library of Carleton (Ottawa-Canada) which collects a wide range of open access resources such as theses, dissertations, ebooks and journals related to multidisciplinary topics.

### Materiali didattici per la paleografia

The Teaching Materials, curated by Antonio Cartelli and Marco Palma, aim to offer some working tools to those who approach the study of Latin palaeography or intend to deepen their themes and problems. The site is divided into three sections: the Tables (accompanied by transcription); the Lyrics (offer an anthology of articles or pieces concerning different aspects of culture written in the Middle Ages); the work in progress (they present educational initiatives).

### Mathesia

Mathesia is a platform that offers companies strategic business solutions through applied mathematics. It also gives mathematicians the opportunity to participate in research projects sponsored by universities, foundations or private organizations around the world.

### Math in

The Math in network provides solutions and transfers mathematical technology to the productive sectors of the company, in particular to companies and public administrations.

Mathematics provides several services: high-level scientific advice, specific and personalized training, collaboration in projects, software development, organization of IT meetings and computing resources.

The mathematics network consists of more than 30 research groups and 400 internationally renowned researchers, with extensive experience in developing solutions for the business world both independently and in collaboration with companies or teams working in other sectors.

### MatWeb

Mathesia is a platform that offers companies strategic business solutions through applied mathematics. It also gives mathematicians the opportunity to participate in research projects sponsored by universities, foundations or private organizations around the world.

"title words  
field" you  
retrieve all  
resources  
whose title uses  
the search  
word

### Biotech's Life Science Dictionary

Dizionario di scienze biologiche. Contiene migliaia di termini relativi principalmente a biochimica, biotecnologie, botanica, biologia cellulare e genetica e, in misura minore, ad ecologia, farmacologia, tossicologia, medicina.

### Dictionary of Art Historians – DAH

Il Dizionario degli storici dell'arte (Dictionary of Art Historians – DAH) è una banca dati ad accesso libero che ha come scopo quello di mettere a disposizione dei ricercatori la documentazione minima sui principali storici dell'arte occidentale. Il database permette di recuperare notizie sulla vita e i lavori di uno storico d'arte spesso difficili da trovare: informazioni sulla sua formazione, sui maestri che l'hanno influenzato e sulla sua metodologia che si trovano spesso nascoste nei necrologi o nei volumi di miscellanee redatti in lingue straniere.

### Medical Dictionary

Dizionario medico che offre informazioni concise e facilmente accessibili per gli utenti alla ricerca di descrizioni di farmaci da banco o prescrivibili, abbreviazioni mediche, procedure di test, argomenti di ricerca medica o malattie. Sono incluse oltre 45.000 voci provenienti da tutte le aree della medicina e dell'assistenza sanitaria.

### Medical Dictionary - MedlinePlus (NLM)

Dizionario medico presente all'interno di Medline Plus della National Library of Medicine.

## Search by topic: simple or advanced

**The resources are indexed by discipline and type and largely reflect the educational offer of the University of Palermo. TracciarisorseOpen therefore allows you to quickly identify quality information and materials for study, thesis and scientific research.**

Search by topic

**Discipline** Architecture, urban planning and design

**Content Type** All

Search

AAT - The Art & Architecture Thesaurus

A structured vocabulary featuring terms, data and descriptions regarding architecture and history of art, compiled by the Getty Foundation. It contains bibliographical references about a great number of authors/artists from all countries and centuries.

Abbreviations.com

Free dictionary and search engine for abbreviations, acronyms and initializations. The catalogue spreads from Medicine to Finance, from Science to Computing and Politics and can be searched by keyword or by subject list.

Abbreviazioni di periodici

A selection of on-line reference tools that could help both librarians and researchers to find the titles of online journals through abbreviations.

ABC Chemistry: free full-text journals in Chemistry. Part A

Collection of free access online journals in the fields of chemistry, pharmaceuticals, science, technology. Section "B" lists journals freely accessible over a trial or temporary period.
