

Apply for the Reaxys SCI Early Career Researcher Awards 2018

Who can apply?

The SCI Giovani and Elsevier are happy to organize the 4th edition of the Reaxys SCI Early Career Researcher Award.

If you are:

- A researcher currently enrolled in a PhD programme OR a researcher who completed a PhD in 2017 or 2018
- And an SCI member

We invite you to submit your essay around the topic:

What (innovative) research are you doing in the field of Chemistry and how can a scientific database like Reaxys help you achieve your goals?

Successful applications will receive:

1000€

800€

500€

Requirements:

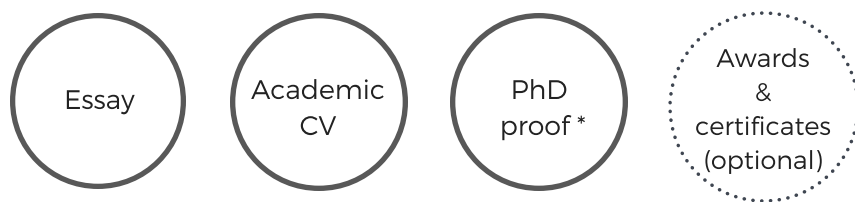

Any field of research is accepted!

Essay criteria:

1. Must be about either work in progress, an original project idea, or a paper already published;
2. Must strongly highlight how Reaxys (and other) scientific databases helped (or can help) you to achieve your research goals;
3. Must be between 750 and 1500 words;
4. Must have a title and be easily readable also by chemists working in other research fields.

Submissions

Should include:

* A certificate released by your university stating when you started the PhD or when you defended your thesis (final exam). We will welcome people who still have to defend the PhD thesis or defended it in 2017 or 2018.

Timelines 2018

The winners of the **Reaxys SCI Early Career Researcher Award 2018** will be awarded during the XXII International Conference on Organic Synthesis (22-ICOS) in Florence, **21 September**. The travel costs of the winners will be covered by Elsevier.
