

Dear Partners,

I can finally give you the "welcome" as official partners of the Provide project.

These months of work on the preparation of final version of Provide are been neither easy nor simple. The European Community has carried out an authentic investigative activity of each step of the project and a control activity of each budget lines.

Anyway, we came out well even if with great efforts from me. This phase is been finally closed the last Friday 12 January.

Now I can officially invite you for the **Kick-off meeting** that will held at Palermo – viale delle Scienze, building 15 - on 6 March, at 10:00 o'clock.

It is advisable that one two members of each University (University of Palermo and Jaèn), Research Center (Ismu) and Ong (Badia Grande, Aseis Lagarto, Telefono Donna, Samusocial international; Oxfam) partners of the Provide are present.

The kick off meeting will have the purpose to drawing up the work programme of this first phase; to indicate the tasks of each group for the first 4 months and to discuss them together and, of course, to get to know each other personally.

Palermo, January 15, 2017

Kind Regards
