

LUXEL CORPORATION

January 18, 2026

To whom it may concern,

Luxel Corporation has been supplying thin-film bandpass filters for spaceflight since 1973. Our unique manufacturing processes produce filters capable of meeting the most stringent performance and reliability standards, and Luxel filters have flown successfully on hundreds of missions spanning all major space agencies. We are the sole supplier of LUXFilm® Polyimide, and we are the only entity capable of supplying the large-area thin film filters necessary for the ATHENA mission.

Sincerely,

Travis Ayers
CEO
