

# Facebook Tech Talks at Palermo

Monday 2nd December | 3pm-5pm

University of Palermo, Aula Magna di Ingegneria, Viale delle Scienze,  
Edificio 7

In these talks, we will lead the students in a journey that goes from the motivation and why one should apply for a tech giant's position, to how to prepare the technical interviews and what it means to work on products used by billions of users. Through our stories, we will show that with effort and a good preparation one can take on the challenge.
