Material Engineering

STUDIES APPLIED FOR

General certificate of Secondary Education :

Secondary High School Diploma in Industrial Chemistry

Bachelor's degree in chemical engineering (L-9) :

Name of the thesis:

“Electrospinning structures of polycaprolacton and graphene for biomedical application”

Supervisor:

Prof. Roberto Scaffaro

Final score:

“100/110”

Master degree in Material engineering (LM-53) :

Name of the thesis:

“ Three-dimensional electrospun systems for the removal of pollutants from marine waters ”

Supervisor:

Prof. Roberto Scaffaro

Final score:

“110/110 con lode”

PERSONAL STATEMENT

During my degree studies I was interested about polymers material, and now I want to continue deepening my knowledge regarding the material engineering; I am interested both in their theoretical and practical aspects and in their cross-disciplinary application. My training path gained in the field of chemical engineering with the continuation of the innovative field of materials engineering has opened me to the vast world of industrial production as well as to the field of frontier innovation.

During my university experience I spontaneously collaborated with a project for the protection of cultural heritage, using the materials developed in the experimental thesis. Despite this, I have always considered it essential to be able to compare myself with a completely different reality from the world of science.

September 2010- June 2015

Event organizer

- during the entire period of high school and the first university years, I dedicated myself to the organization of musical events, parties. This experience gave me the opportunity to learn how to manage, coordinate, and organize the team of promoters for the sale of tickets for musical events, and made it clear how essential it is to work in a well-organized and efficient team to successfully complete a goal.

September 2011- June 2017

Chemistry, Physics and Biology private teacher

- I have helped younger students (still attending high school, and from university sometimes) understanding physical and mathematical concepts
- Through this experience I had the opportunity to improve my oral exposure abilities, especially related to the previously cited disciplines
- Thanks to that I have been able to pay by myself my own past and future studies

07/01/2011- 08/06/2011

Internship:

C.A.D.A. Chemistry Laboratory Applied Water Purification - Menfi (Ag).
Hours of Stage 80

Activities to which it has been assigned:

Sampling and environmental monitoring with specific testing of pollutants in waters.

Operator to whom was assigned:
Ing. Marino Mario

01/04/2019-31/08/2020

GOLDGEL Srl Controll in process e Quality engineer

Activities to which it has been assigned:

Industrial process control, process optimization. Quality control and testing on polypropylene trays
