

UNIVERSITÀ DEGLI STUDI DI PALERMO

M.S. Yalin
Memorial Mini-Colloquium on
Fluvial Eco-Hydraulics and Morphodynamics:
new insights and challenges

November 28-29, 2013

Department of Civil, Environmental, Aerospace,
of Materials Engineering (DICAM)
University of Palermo, Italy

Call for Abstracts

Abstracts of maximum 300 words should be submitted by e-mail directly to donatella.termini@unipa.it. Abstract must contain the paper title, the authors names, their corresponding affiliation, postal and e-mail addresses. All submitted abstracts (please both in DOC and in PDF) should be written in English.

Deadline Date for abstract submission: October 20, 2013

After the colloquium, written versions will be published in a guest-edited Special Issue.

Conference themes

The colloquium aims at establishing tight links between leading scientists and research activities in fluvial processes in appreciation of Yalin's work.

Thus, themes of the colloquium are principally topics that Yalin's work covered:

Topics include but are not limited to:

Turbulence
River mechanics
Sediment transport
Bed forms
Large-scale river morphodynamics

The Colloquium is focused on specific topics and assumes the participation of a limited number of scientists.

Thus, it is important to fill the pre-registration form by **October 10, 2013**

You can find the pre-registration form at the web-site

Please return it by e-mail to: donatella.termini@unipa.it
or fax it to: ++39 091 23860810
