BIOSTATISTICS SEMINARS

Invited speakers from the Mathematical Institute,
Leiden University, Netherlands

The event is scheduled for **16th March, 2023** from **14.30** to **17:15** CET
at **AULA 5** of **DSEAS, University of Palermo**

Speakers:

14.30 Marta Fiocco: Statistical methodology
for volume-outcome studies

15.00 Mirko Signorelli: Model-based clustering
for populations of networks

15.30 Coffe break

15.45 Marta Spreafico: Causal effects of
chemotherapy regimen intensity on survival
outcome in osteosarcoma patients through
Marginal Structural Cox Models

16.15 V.H. Arntzen : When exactly? Differential
recall of event time in the context of incubation
time estimation: simulations providing practical
recommendations

16.45 Daniel Gomon: CGR-CUSUM: detecting
changes in the quality of care
