Participation steps

- 1 Make sure you are eligible for participate

- 2 Create a profile on Open Data Playground

- 3 Create a team and invite 2 friends to join

- 4 Join the challenge as a team

- 5 Complete the task

- 6 Upload the submission on Open Data Playground

How to **create** a team

- 1 Create a profile on Open Data Playground
- 2 Verify your identity by connecting your LinkedIn profile
- 3 After logging in, click on your profile icon at the top right and select "your account"
- 4 Enter the "team" menu and click on "create new team"
- 5 Create a team name and click "save"
- 6 Invite other members to join in the "Add members" section by entering the emails separated by a comma and click on "send invitation"

How to **join** a team

The user who receives the invitation to join the team must already have a profile on Open Data Playground verified through LinkedIn

- 1** Click "join the team" in the invitation email received
- 2** After being redirected on your profile, click on the **notification icon** at the top right, then click on the notification regarding the invitation to join the team
- 3** A window will be open and you have to click "join the team" at the bottom right of the window

How to **modify** a team

- 1 Click on “your challenges” section that you find on your profile
- 2 Click on "Leave the challenge" at the top right of the hackathon challenge card
- 3 Now you can modify the team members as you wish
- 4 After finishing the changes sign up again for the challenge

Accept the challenge and
register for the event!
