

CRediT Author Statement

PhD candidates preparing their manuscript will need to state either in the Introduction or in the main text of the thesis which part of their work results from collaboration. For these parts, the student will need to state the names of the collaborators and indicate their contributions.

Contributor Role Taxonomy – [CRediT](#) - intends to recognize individual author contributions, reduce authorship disputes, and facilitate collaboration.

CRediT offers authors the opportunity to share an accurate and detailed description of their diverse contributions to the published work.

The following can be used as a guide to formulating such a statement (assuming Massimo Attanasio is the PhD candidate):

- Chapter I - Massimo Attanasio: Writing- Reviewing and Editing. Andrea Consiglio: Conceptualization, Methodology, Software. Vito Muggeo: Visualization, Investigation. ,
- Chapter II - Massimo Attanasio: Visualization, Investigation. Giada Adelfio: Data curation, Writing-Original draft preparation. Michele Tumminello: Writing- Reviewing and Editing.
