The workshop is aimed to gather specialists on frames, bases, wavelets, approximation methods. Theoretical aspects and applications to various areas of Science and Technology will be considered. The participation of young people working on these subjects is very welcome: they will have an occasion of meeting very experienced researchers and discuss with them new perspectives and possible developments.

Invited lecturers

J.-P. Antoine (Louvain-la-Neuve)
P. Balazs (Vienna)
F. Bagarello (Palermo)
O. Christensen (Kgs. Lyngby)
H. Feichtinger (Vienna)
H. Inoue (Fukuoka)
L. Rodino (Torino)
J. Stöckler (Dortmund)
G. Vinti (Perugia)
