The Educational Innovation project Erasmus+ INTEGRATED BILINGUAL MODEL (IBmodel) is being developed by the Fundación Santos Mártires, the University of Córdoba, the University of Porto and the network of Eurolingue School language schools in Sicily.

This project aims to provide answers to three great challenges of bilingual education in Europe: the effective evaluation of bilingual systems, the creation of digital and interactive resources and the teaching coordination of the different educational agents that collaborate in these plans.

Wrapping up (Erasmus projects, Bilingual programmes, Social impact, Inclusion, 2022 Conference Oporto, 2023 Conference Córdoba)
David Ruz, Víctor Pavón, Maria Ellison and Adriana Iacono
In this final panel, the conclusions reached throughout these sessions will be offered, particularly in relation to the contribution of this Erasmus project. Likewise, information will be given on future activities of this project, in particular the conference on evaluation in Porto and the international congress on bilingual education and inclusion in Córdoba.
