

FORTHEN STUDENT CONFERENCE

UNIVERSITY OF BURGUNDY - SEPTEMBER 2022

forthem.

Fostering Outreach
within European Regions,
Transnational Higher Education
and Mobility

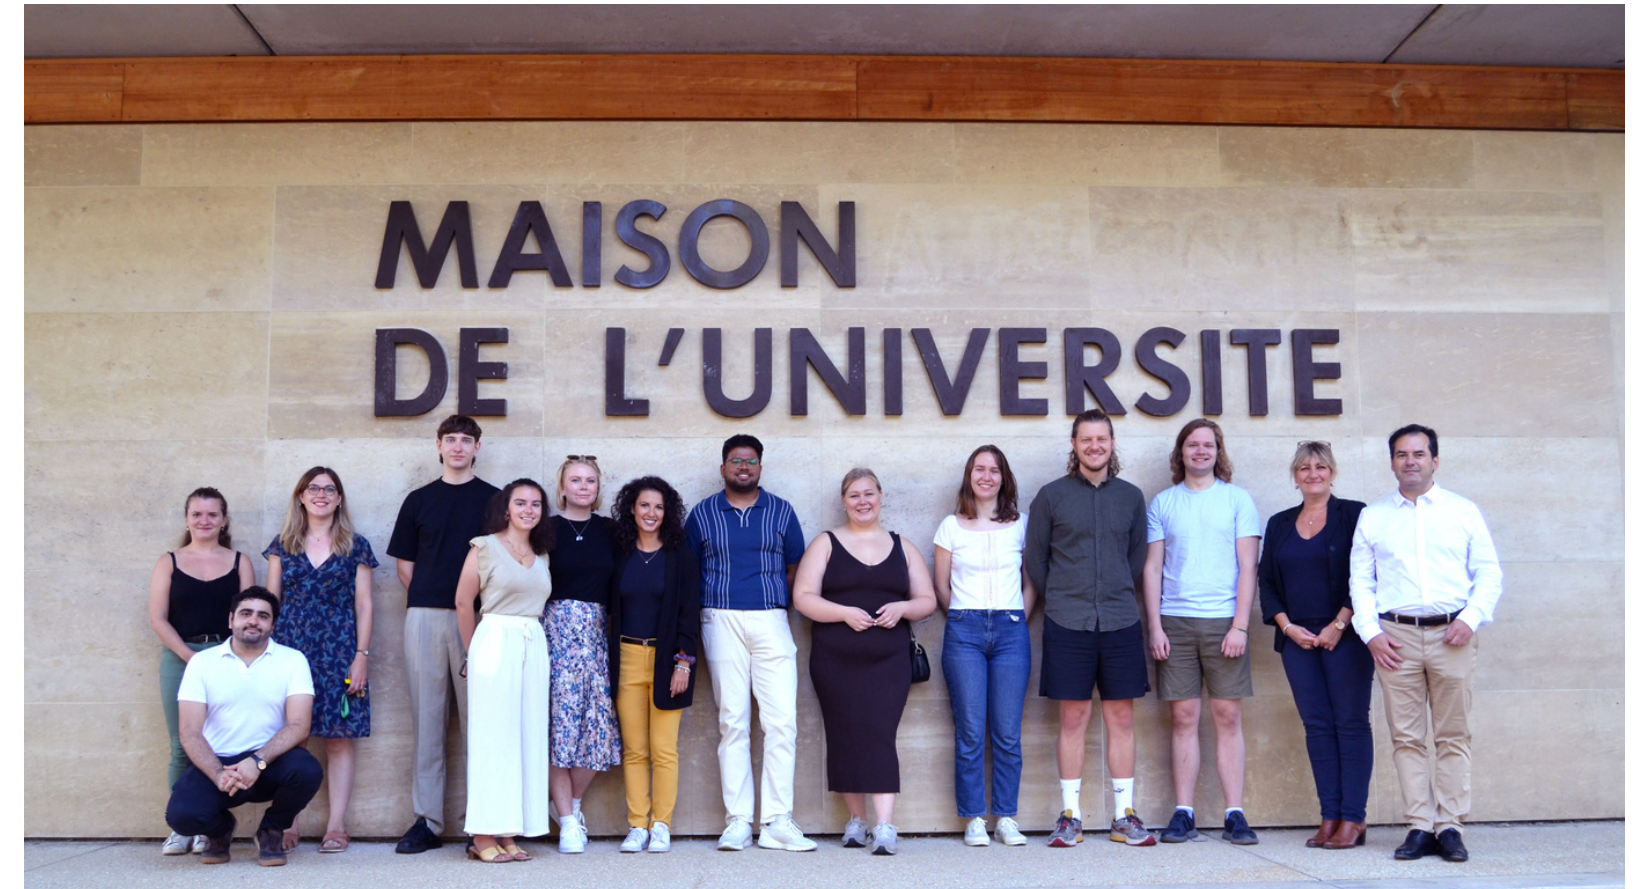

With the support of the
Erasmus+ Programme
of the European Union

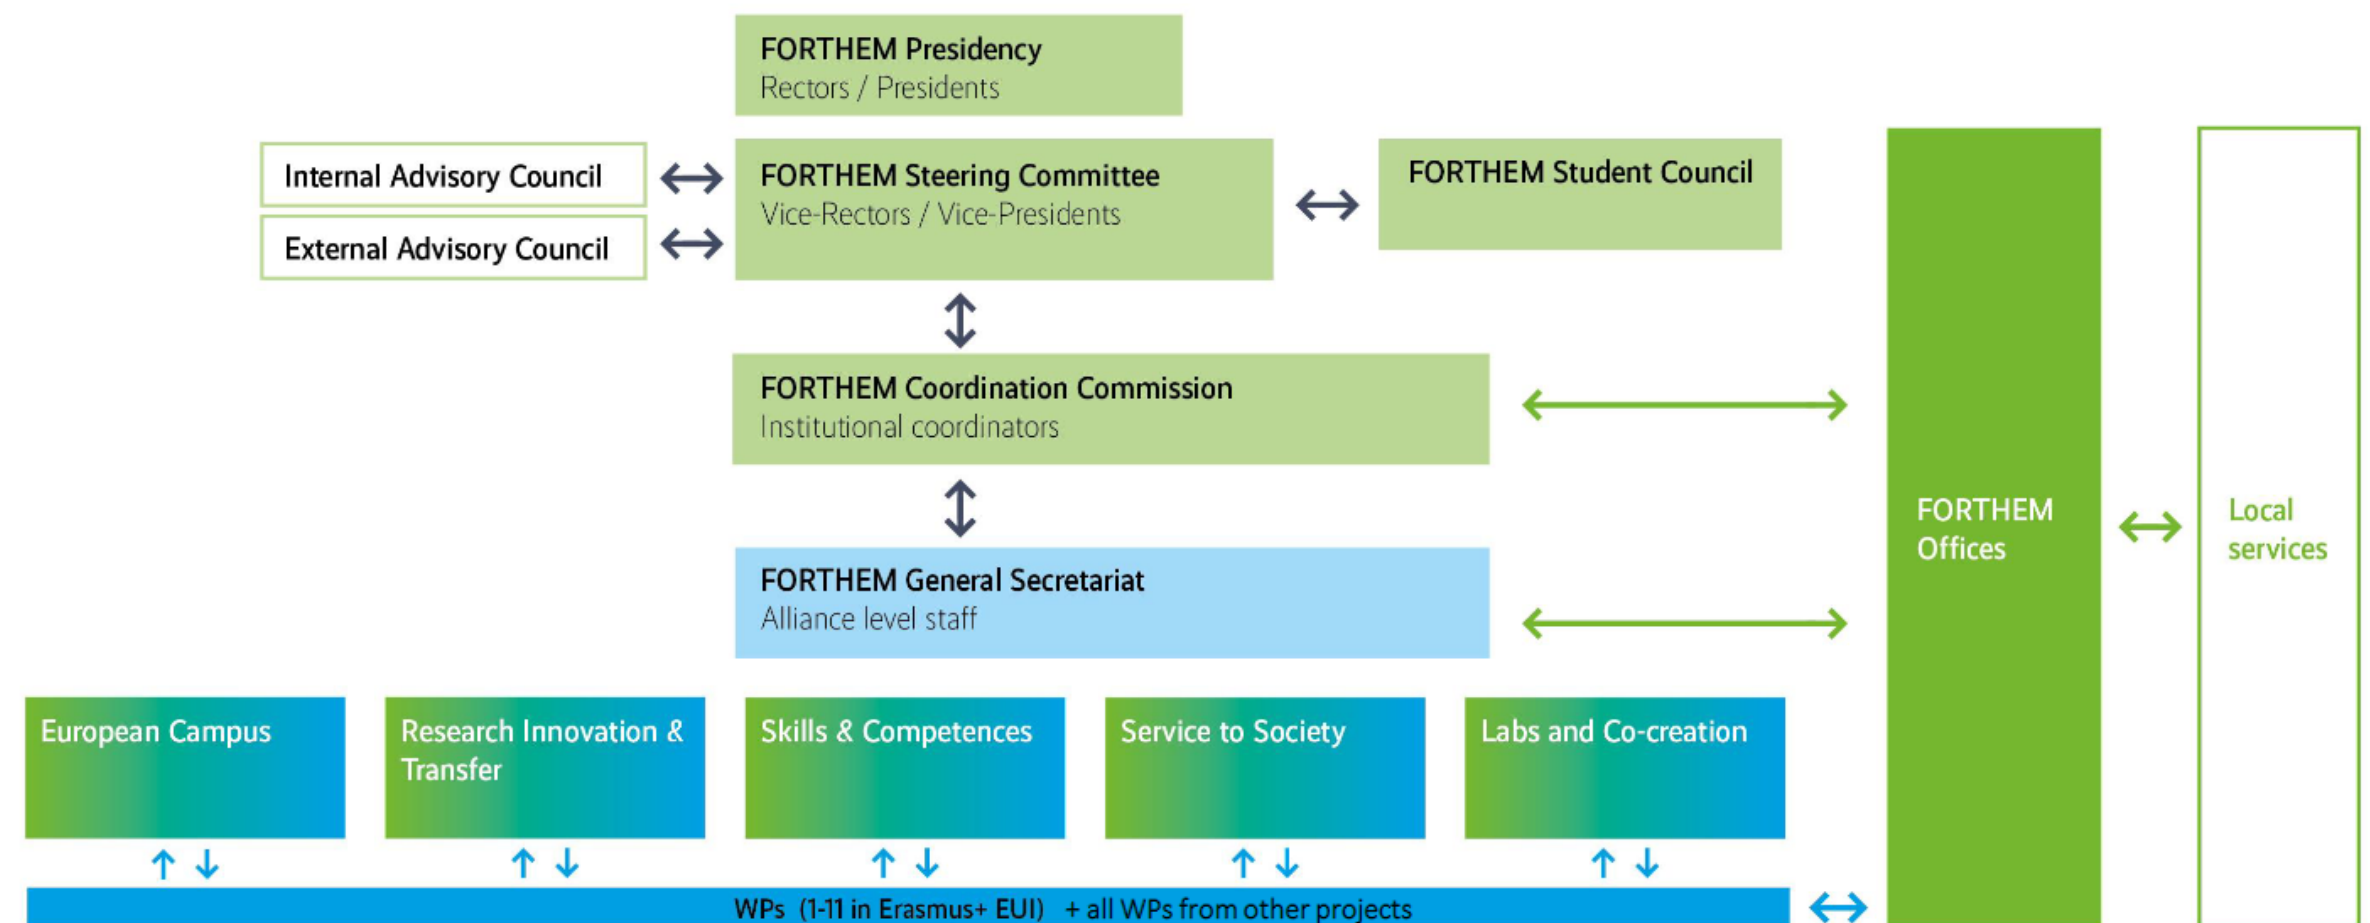

Appreciation

A big thank you to everyone who helped make this student conference a success. Special thanks to the professors and trainers who intervened with the students for targeted workshops. Thanks to the Forthem office staff for their work, their commitment and their availability. Thanks to the students of the partner universities for their presence, their dynamism and their involvement in the Alliance and its projects.

The new Forthem Structure

During this presentation of the new Forthem structure made by Manon and Spela, the problem of student representation in the Steering Committee was raised (1 or 2 student representatives). *This question will be discussed in the future with the appropriate representatives.*

Design of the Student Council

During this workshop, we focused on the following 3 topics :

- * Selection of representatives to the FORTHEM student council and other councils, if any.
- * The organization of student associations in each university and FORTHEM's position in relation to these official bodies.
- * Preferred communication channels: internal and external communication strategies.

Code of conduct

We have reworked the code of conduct. After a careful reading, each clause of this document was stated and discussed, possibly modified, and voted.

Attached to this email you will find our updated code of conduct.

The following items are still under discussion and will be discussed during a future meeting

- Voting methods and procedures (election of chair and vice chair).
- Detail the clause on the process for choosing student representatives.
- Clause on removal of student representatives.
- Clause on respect, safe space,
- Clause on warnings before removal

EPICUR

During the workshop, we reflected on the definition of good practices in general. Then, we named the good practices that are established in the Alliance. Finally, we wrote a charter of good practices that we will send to the student council of the EPICUR Alliance.

They will also write a document including the charter of their good practices that they will send us in return.

Please find attached to this email the charter that has been drafted

Project Management Workshop

During this workshop, students were able to acquire skills and knowledge about project management. How to build a project, how to develop an idea, what are the necessary resources,... these were the points discussed.

After this practical part, the students were able to apply their skills via the reflection of two new projects.

Language Cafe

During the language cafe held on the esplanade of the University of Burgundy campus, students were able to meet UB students in order to make them discover the opportunities of the Alliance Forthem for them.

Thanks to small games and the distribution of goodies and flyers, a communication operation was carried out on the campus. This gave rise to numerous exchanges in a friendly and European setting.

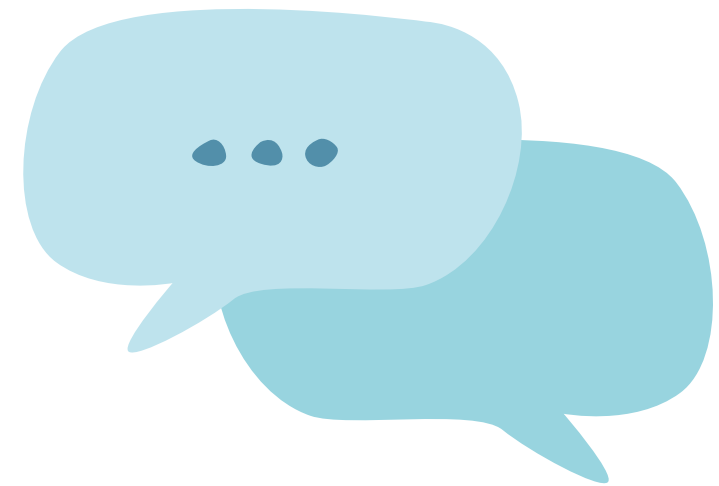

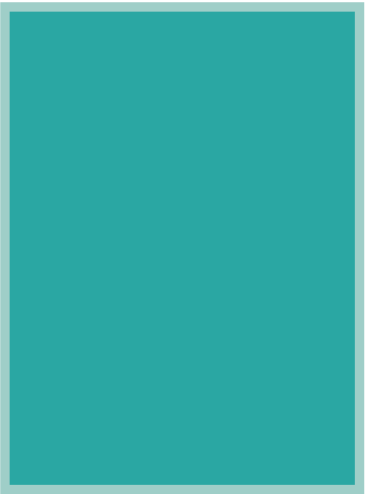

Communication Workshop

During this workshop, students were able to learn the keys to good communication with the right tools. Then, with this new knowledge, we were able to exchange on the communication practices in each of our universities.

Finally, the students exchanged ideas with Mrs. Jocelyne Gérard in order to build an efficient and relevant communication strategy targeting the students of the 9 partner universities.

This afternoon focused on communication ended with the shooting of a promotional video for the Forthem Alliance

**Co-funded by
the European Union**
