Definition & Structure

- The **FORTHEM Digital Academy** is a set of *8 interconnected e-learning platforms* for virtual mobility, provision of online courses, collaboration and networking for students and staff
- Central platform: https://elearning.forthem-alliance.eu/
  - This platform contains all the courses developed by the alliance, for the alliance
- 7 Local platforms (1 for each university)
  - Each university decides which courses to share in the Digital Academy

Getting Access

FORTHEM Digital Academy

FORTHEM consists of multidisciplinary public research universities that are situated (all but one) outside the capital regions and are not among the largest nor highest-ranking universities in their countries. Although based on both university-wide and field-specific bilateral and trilateral cooperation, it is a new network of institutions that have the dynamism and flexibility to experiment new innovative forms of collaboration. Thereby, FORTHEM presents a reproducible model for both European and non-European universities that wish to develop similar new alliances.

How to share my course in the Digital Academy?

- Teachers can't directly share courses in the Digital Academy
- You need to contact your local FORTHEM Office / FORTHEM IT Expert to get more instructions
- Technical checks are executed on your course to validate it
- Procedures may vary depending on several factors:
  - Course type
  - Limited or unlimited accesses?
  - Requirements for participants
  - Need to setup a selection procedure?
