<<I am contacting you for the following reason: I am writing to express our interest in joining your consortium as an experienced partner in youth employment, inclusion, and skills development. The Youth Employment Training Foundation of Cyprus has long-term experience supporting young people aged 15–35, including emerging adults, NEETs, deaf youth, neurodivergent young people (autism, ADHD and other neurodevelopmental profiles), and young people living with multiple sclerosis. We specialise in strengthening both soft and hard skills, fostering circular and sustainable job creation, and supporting employers in designing and adopting inclusive workplace practices. To date, we have designed and implemented over 50 structured training cycles, reaching 300+ young people, with strong social, employment, and policy impact. Our core areas of expertise include: ● Youth employment, employability pathways, and lifelong skills development ● Inclusion of neurodivergent youth and young people with disabilities ● Circular economy, green skills, and sustainable job creation ● Gender equality, hate speech prevention, and online safety ● Whistleblowing awareness and youth participation in policymaking ● Intergenerational and community-based programmes ● Co-creation, testing, and validation of inclusive training methodologies Our multidisciplinary team includes experienced and accredited trainers, youth workers, researchers, and project managers, with proven capacity to contribute to: ● Co-creation with young people and stakeholders ● Pilot implementation, testing, and validation of solutions ● Training delivery and employer engagement ● Dissemination, communication, and impact assessment ● Policy-oriented activities and stakeholder dialogue We actively support youth participation in policy processes at national and European level and are accustomed to working within multi-country, multi-stakeholder EU projects>>
